Mothers who have used Zam-Buk say it is so fine for the many little accidents of daily occurrence in the house—and especially when there are children—that they would not be without it. Not only so, but children who have had Zam-Buk applied to an injury or sore, when again injured, cry for Zam-Buk to be applied. They know that Zam-Buk stops pain. Nothing ends the pain of a cut, bruise, burn, or skin disease like Zam-Buk, and nothing soothes, draws out the soreness and heals so quickly.

Mrs. I. Willard of Sarnia, Ont., says: "I could not do without Zam-Buk for my children. It is the best ointment we have ever used for burns, sores and cuts."

Mr. L. B. Anderson of 1467 E. 22nd St., Minneapolis, Minn., writes: "When any of the children, my wife or self meet with an accident, we immediately apply Zam-Buk. It has saved us many a doctor's bill."

Mrs. C. B. Storey of Riverport, N.S., writes: "I find that Zam-Buk for any trouble caused by teething. Zam-Buk completely healed them."

Zam-Buk is equally good for eczema, ringworm, scalp sores, blood-poisons, ulcers, abscesses, piles, boils and pimples. All druggists, 50c. box, or Zam-Buk Co., Toronto. Send 1c. stamp for free trial.

Now Looks After Home. Thanks to Lydia E. Pinkham's Vegetable Compound

Mrs. H. Pearce, Box 490, Medford, Ontario, writes:—"I was so weak I could hardly do anything. I had a backache and was nervous. I read about Lydia E. Pinkham's Vegetable Compound and how it helped others, so I decided to try it. I did and it has done me a world of good. I can look after my home now and am strong and well. I cannot say enough in favor of your Vegetable Compound. I recommend it to my friends and you may use my name if you wish to do so."—Mrs. H. Pearce, Box 490, Medford, Ontario.

If you have any ailment peculiar to women and desire special advice write to the Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence. For 30 years Lydia E. Pinkham's Vegetable Compound, a medicine made from roots and herbs, has been the standard remedy for female ills. For sale by all druggists.

TELEPHONE WEEK.

In another column of this issue the Bell Telephone Company again invites the public to visit the Central Office, Dundas Street, any day or evening of Telephone Week, November 20th to 25th inclusive. To the "Beaver" Manager Graham explains the idea behind Telephone Week as simply an effort under the highest standard of telephone service through wide-spread public co-operation.

"After all", said Mr. Graham, "the telephone user has no small part in determining the quality of the service. There are always three persons involved in every completed call—the calling party, the operator and the person called. To ensure the best type of service all three must observe certain quite simple but vital requirements of good telephone practice.

"Now we have found from actual experience that when subscribers know something about telephone equipment and the work that our operators are called upon to do in completing a call, they invariably use their instruments to better advantage, ensuring both for themselves and the community a service that can be improved upon. Obviously there is no place like our central office for showing people just what lies behind their telephone instruments, and our whole staff are hoping that every day and night next week will see a big section of our public honoring us with a visit. They will be heartily welcome.

Now that I know how to use Rinso — why it's just splendid.

Knowing how to use Rinso correctly means finding workless wash days. It's well worth while. Let us ask—are you making the same mistake as Mrs. Carr?

WHAT WAS MRS. CARR'S MISTAKE?

She forgot that Rinso is not the same as ordinary soap, flakes or washing powders. She did not give Rinso an opportunity to show its wonderful power of washing clothes clean just by soaking. She used to put Rinso-dirty from the package into the tub without first making a famous Rinso liquid.

The result was that the rich granules of soap even as Rinso were not properly dissolved and their value was not spread evenly through the wash so as to loosen all the dirt in every garment—whether it were soiled or in the least. The result of course was disappointing.

THE PROPER WAY TO USE RINSO

Now this is the proper way to use Rinso—for ordinary washing—For each tubful of clothes take half a package of Rinso put it in a little cold water and stir until it is in a cream thoroughly dissolved. Add two quarts of boiling water and stir well. When the froth subsides there will be a clear amber coloured liquid. Partly fill your tub with cool or lukewarm water and add the Rinso liquid. Put the clothes in so that each is covered and soak the things thoroughly overnight. Do not just dip things up and down.

In the morning rinse the clothes until the water runs clear. Only soiled collars and cuff edges may need a slight rubbing with your fingers. Note—for washboard or boiler just wring and dry.

EXTRA SOILED GARMENTS

Very heavily soiled garments should be brought in lukewarm water first rub a little moistened Rinso as it comes from the packet on any body or bad spots. Next morning add warm water for rinse. The dirt will just float away entirely.

FOR THE WASHING MACHINE

It is splendid. Soak the clothes for one hour, two hours, overnight, or as long as convenient, then add a little fresh Rinso liquid and operate the machine. Rinse thoroughly and the clothes are clean—all the dirt will run away.

Follow these simple directions and you will be delighted. Monday after Monday, with the Rinso way of washing.

"HAD A NARROW ESCAPE"

"I never realized until a few months ago how close I came to losing my health," said Mrs. Hall, "I have always had our good health that a cold either in the head or chest was unusual. Then the 'flu' came on my worst. Outside an occasional cold, I had never known what it was to lay up a day in bed for a single time in my life, until last December. One afternoon I got a chill and no matter how close I sat to the stove, I couldn't seem to get warm. Then still was followed by a fever that lasted all night. As usual I made out it not it kept getting worse and worse. Finally I had to go to bed. I was good for the doctor. His examination showed that I had pneumonia. I afterwards learned that my careful nursing on the part of my husband and some of my friends was the only thing that did for me. I had a nurse day and night. And here's where trouble began. While I was low out in danger, I was anything but well. I was still very weak from the effects of the pneumonia. Although I had lots of life and energy before my sickness, I was now worn out and tired all the time. I slept fairly well, nevertheless I was exhausted. But my sleep didn't refresh me because, while I appeared to be asleep I was conscious most of the time of what went on around me. Although all kinds of tempting dishes were prepared for me I had no relish for food. This sickness had already undermined my health to such an extent that I was a living skeleton. I was getting discouraged and nothing I took seemed to do me any good. I wonder if Carnol wouldn't build you up, a friend said one day. It did me a world of good, I was completely run down and you can see for yourself how well I look today. Why don't you try it? Thanks to this friend's advice I am in perfect health again, as healthy and as full of life and vitality as I have ever been."

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 9-622

For your Silk Sweater

Your silk sweater can be made dainty and clean, and as smart as new, if you wash it in the gentle Lux way.

Make a rich suds by whisking a teaspoonful of Lux into half a bowlful of very hot water. Add cold water until lukewarm. Dip the sweater in and down, pressing suds right-side through soiled spots. Rinse in three lukewarm waters. Squeeze water out—do not twist or wring. Roll in towel and when nearly dry, press with a warm iron, gently pulling the garment into shape as you do so.

The thin, white, satin-like flakes of Lux are made by our own exclusive process, and quickly dissolve into a rich bubbling lather.

Lux is sold only in sealed packages—dust proof!

Canada's High Commissioner and Prohibition.

Mr. Larkin, Canada's High Commissioner, arrived in England March 31st, and was immediately interviewed by The Observer. Naturally Prohibition was one of the topics discussed.

Remarking that he was not "himself an abstainer," Mr. Larkin declared that Prohibition, generally speaking, was popular in the Dominions, and there was no doubt it was exercising a most beneficial effect. "I am sure we are saving, by direct and indirect means, the interest of our public debt," declared Mr. Larkin. The small dealer is paying his debts more regularly. Contractors say their workmen work more regularly. I know there are well-to-do folk who have well-lined cellars, but they will disappear in time. As I say, I am not a total abstainer, but I cannot help testifying to the good effects of Prohibition. I have had personal knowledge of these benefits in the work of our Hospitals."

Only a Youth, but Never Knew a Boyhood

George Adams is a very weak boy and his mother says he never knew what it was to play without feeling pain. He has a good many brothers and sisters and his parents are very poor. So when George got so long ill-at-ease—he was just at the time "the became a bad and took upon himself the task of earning money for the family.

He went to learn a trade in an iron foundry, where fumes and hard work undermined a weak system and sowed future trouble. Now and then one other working member of the family would cease earning through sickness or lack of job, and George would have to keep his nose to the grindstone a few more hours each day to make up for it. His life was just work, work, work, until one day he dropped on the floor. The company physician, who examined him, pronounced a year or two at the Muskoka Hospital for Consumptives. He can't understand why he never had a boyhood and none of the good things of life, but he's faithful happy—he knows separation from his family safeguards them. He's content, and he still has hope.

There are many just such deserving cases in need of treatment at the Muskoka Hospital. Will you lend a hand?

A Jolly Surprise.

A surprise party was held at the home of R. N. Storms, Wilton, on Tuesday evening, Oct. 31st, in honor of Mr. Storms' birthday. The guests all in fancy dress made a jolly appearance. The evening was spent in music and at a late hour a delicious supper was served. Those present were Mr. and Mrs. A. A. Asselstine, Moscow; Mr. and Mrs. B. Purdy, Marvale; Mr. and Mrs. R. Gibson, Glenvale; Mr. and Mrs. F. E. Day, Mr. and Mrs. J. Shibley, Harrowsmith; Mr. and Mrs. Clare Amey, Mr. and Mrs. H. Guess and Mr. and Mrs. F. Grant, Sydenham.

Masonic "At Home".

The Masonic Union Lodge No. 9 held an "At home" in their rooms on Tuesday evening of last week. Supper was served at 9.15, after which an excellent programme was given, the principal artists being the David Bros., of Toronto, who were accompanied by a Toronto pianist. Short addresses were given by Bros. W. S. Herrington, Rev. A. J. Terrill and G. W. Morden. After the programme had been concluded the guests and members indulged in a dance. Walters' Orchestra supplied the music. A large number of members and friends attended and spent an enjoyable evening.

Religious Educational Work.

A special financial drive will take place on Monday next, Nov. 20th, all over the County of Lennox and Addington, in the interests of our boys and girls, through the Ontario Religious Education Council, who helps our Sunday Schools, through 350 annual conventions. It helped over seventeen Summer Schools and Training Camps in 1922. It gives assistance to over 10,000 union Sunday School scholars and workers who have no denominational leadership, and it spends every dollar it receives in the interests of Sunday School work in our Province. Make your contribution a generous one to this worthy organization.

A Very Sudden Death.

To many friends of Miss Gladys Trumpour were shocked to hear of her sudden death in a Toronto hospital, on Saturday last. About a week ago Miss Trumpour went to Toronto to attend the funeral of her brother-in-law, and while there had a bad spell. Medical attention was secured and she was advised that an operation was necessary. The operation was performed on Wednesday, and apparently successful, and the news on Saturday afternoon that she was dead, cast a gloom over the town. Miss Trumpour was a former resident of Adolphustown, and came to Napanee with her mother several years ago, and during her residence in Napanee endeared herself to a very large circle of friends, especially among the younger people.

Neely's Bookshop,
Napanee, Ont.

Dear Mr. Neely,

When in Napanee in July, as we were touring Canada, we were attracted by the appearance of your place of business and upon entering to look about and make a few insignificant purchases, we were courteously invited to use your 'Lounge' and were delighted to find such complete accommodation provided for the comfort and convenience of tourists. We compliment you and the Town of Napanee for conceiving and providing such a place and will most heartily urge all our friends who contemplate a trip through Canada to take advantage of the hospitality you so generously extend.

Cordially,
The Maclure Party.

We heartily appreciate the above letter and sincerely wish they could see our beautiful designs of Christmas Cards, New Fiction, and fancy Goods and Calendars, we are displaying for inspection and criticism today.

If YOU could Visit our Mills—

VISITORS to the Quaker Mills no longer marvel at the exclusive flavour, texture and goodness of all things baked with Quaker Flour. They see for themselves the infinite care with which Canada's finest wheat is selected from the berry to the sack.

They see how thoroughly the grain is screened and cleaned—how gradually and finely it is milled—to produce a perfect flour. They see how Quaker Quality is ever maintained by constant vigilance and hourly tests in the process of milling—by constant baking of bread from each day's flour. Quaker Flour must live up to the Quaker standard before it can leave the Quaker Mill.

They realize why no other flour can equal "Quaker." Try it for your next baking.

STORY OF "SIR JOHN A."

WHEN HE WAS A LAW STUDENT IN PICTON.

Sir John A. Macdonald once told a gathering of friends the following story, and, so far as I know, it has not previously been chronicled:

"When I was a law student in the town of Picton," he said, "on a very cold evening, I and some of the young men found on the road a dead horse, frozen stiff, and we thought it would be a joke to place the horse in the Methodist church there at the end of Chapel street, and this we did, placing it in the pulpit seated in the chair with its two front feet on the reading desk. There was being held at the time a protracted meeting in the church.

"Soon after the sexton arrived and began to light up, beginning at the door and lighting the candles in their tin holders around the wall and when the old sexton reached the pulpit, the one half of the room being badly lighted and the other half in darkness, he discovered the awful apparition in the pulpit.

"Running out he declared that the devil was in the church. In a very short time the whole population of the town was on the street—men, women and children, but nobody was found willing to go into the building. Finally lanterns were brought, and a committee went in and removed his satanic representative."

The next day a young man of the town was put in trial and Sir John had to act. I can't now take notes of the trial of this simple, but young man was convicted of the offence and fined on the usual scale. Sir John, however, was not satisfied with the punishment, and, when the court was over, he called the young man to him and said: "Look here, my young friend, I am going to pay your fine, as it strikes me that the offence was committed more in a spirit of fun than in a spirit of evil, and I don't want you to be branded as a criminal for life." Of course, the young man was very much pleased at the minister of Justice's generosity, and would never allow him to be bored on the matter.

PROGRESS IN HORTICULTURE.

Some Facts Regarding the Work of the Dominion Experimental Farms in This Connection.

Exceedingly interesting and informative is the report of Mr. W. T. Macoun, Dominion Horticulturist, for 1921. The apple naturally is foremost, but strawberry culture, potato culture, experiments with 28 varieties of pole beans, with 35 varieties of corn, with a number of varieties of cucumber, with 45 varieties of carliest beans, and in ornamental gardening, including nearly a hundred varieties of roses, many varieties of tuberous rooted begonias, gladioli, chrysanthemums, all receive their share of attention.

Turning to apples, as showing the immense amount of work that is being done, it can be stated that whereas when activities started, now more than a quarter of a century ago, there were only about five winter varieties that could be called hardy at Ottawa, according to the Central Experimental Farm Superintendent, there are now, as a result of breeding, upwards of 200 varieties of this kind of fruit, all hardy in every way.

It should be stated that originally the object in the Dominion Experimental Farms system was to give special attention to work that would be of benefit to the prairie provinces, and the first director, the late Dr. William Saunders, was appointed specially with that object in view. Work there was carried on at the Ottawa Farm, and also at the branch farms established in the Northwest Territories, now the provinces of Alberta and Saskatchewan. The climate in Ontario is such that it is possible to grow many varieties of apples and pears that will not succeed in the prairie provinces, and so it has been possible to carry on work here that could not be undertaken in the West. Many varieties of apples have been developed here that are now grown successfully in the prairie provinces, and which have been distributed from the Dominion Experimental Farms system. Among these are Wealthy, Melba, Patterson and Dafoe. A work, which has to do with the same kind of fruit, is that in the crossing of Wealthy and McIntosh.

In connection with the Central Farm, Ottawa, a collection of native apples has been made from all parts of the country, and two hundred and two varieties are now growing there, which are valuable to have for reference. A table is compiled in the report which shows that a number of years must elapse from the crossing of the seed to the time when the fruit has obtained popularity. Before selling, for instance, for market, at introduction, varieties required to be tested two and three years, and after introduction ten years. Scions have been distributed free by the Division to those persons who apply for them before March 15th. This does not include certain limited commercial sorts which can be obtained from nurserymen. Chapters are devoted in the report, which can be had without charge by applying to the Publications Branch, Ottawa, to the importance of using hardy stocks for root grafting, to spraying experiments, to the individuality of apple trees, and to the manufacture of sweet apple cider.

Relative to strawberry culture, the story is told of experiments which tend to show that early planting is an essential feature to success. Of an asparagus a statistical table is given of the result of tests conducted for five years. Of pole beans the results of five tests last year of 28 varieties are tabulated in detail. Two-year tests of nine varieties and three-year tests of two varieties are similarly treated. Thirty-five varieties of corn were tested for the purpose of finding the best, possible earliness, yield and good quality, and a great degree of variability was found to obtain certain results, produced from different sources. Descriptive notes are given of the various sorts cultivated and tested.

NERVOUS AND RUN DOWN

Relieved by Taking Lydia E. Pinkham's Vegetable Compound

Colborne, Ontario.—"For many years I have had troubles with my nerves and have been in a generally run-down condition for some time. I could not do my work half the time because of trouble every month. I was told of Lydia E. Pinkham's Vegetable Compound by friends and advised to try it. It has done me good and I strongly recommend Sinex. I have taken it until I have been able to do all my own work and I also know friends who have found it good. You can use these facts as a testimonial."—Mrs. ELSIE V. SLATTER, Box 791, Colborne, Ont.

Any woman in this condition should take the Vegetable Compound, for it has helped other women and so it should help you.

For more than forty years this good old-fashioned red cross herb medicine, which contains no narcotics nor harmful drugs, has been the standard medicine for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Mass.

Mourn silently and low.
Sadly missed by Father, Mother, Sisters and Brothers. 47a

IN MEMORIAM.

In sad and loving memory of my dear brother, Daniel Gray, who was called away so suddenly Nov. 11th, 1922, at Roblin, Ont.

Rest, dear brother, thy labors are o'er,
Toy willing hands will toil no more;
A faithful brother, kind and true,
No friend on earth shall we find like you.

You made no one your last farewell,
You waved your hand to none,
Your spirit fled before we knew
That you from us had gone.
Oft, oft, my thoughts do wander to
the grave just over yonder,
Where they laid you, my dear brother,
just two weeks ago to-day.

A BED-TIME STORY.

It was growing late and the evening breeze just stirred the fallen October leaves. The mother stood in the open door of the tiny cottage, her tired eyes gazed into the dusk, then turning, she called her children to bed.

"Alonzus and Evette, dears," she said, "it is growing late, soon you must go to bed, for, as it is so hot, you may go down to the corner spring and get a soda, and on your way back, my darlings, stop at the drug store and bring your father home."

And they all lived happily ever after.

Fish Nets, the First Line.

Examine a piece of fine and costly lace. What is it fundamentally? It is a net. The first thing it is fish net. The first dressmaker was a fisherman or perhaps his wife.

All of the beautiful laces we know today are developed from that clever invention, the fish net. They harked back, therefore, for this the problem.

The first article men who came to American found the housewives on the seashore, but they did find the Indians weaving fabrics of cotton, yucca and other fabrics, with elaborate patterns and designs. The new possessors were difficult at a certain sort of "domestic" work.

The California Indians of today make excellent baskets, which they have taught to them by white people. The pottery they make for sale is somewhat inferior to that which Schley's Spider, before returning to Whitby.

Hand-feeding Lambs.

Lambs that are hand-raised often or have milkless mothers can be successfully reared by using goat or cow milk in a raising-nipple feeding bottle. The only born lamb requires a small quantity of milk at first, gradually increasing as it grows. Two or three additional feeds per day are given. Warm milk is best. Skim milk may be used after the lamb is about a week old. Whole milk may be used for the first few weeks, but after that skim milk gives good results. Milk may be continued as a feed as long as the lamb will take it. Should butterfat lambs develop scours, this condition can be checked quickly by heating the milk to boiling point and then cooling quickly. A teaspoonful of vanilla to each feeding helps to allay scours. Give the milk at blood heat.

Farm Trespassers Scored.

Mrs. Bess Wilson, editor of the Redwood, Minn., Gazette, very properly scores those people who drive through country districts and rain the farmer of his game and wild fruit and other products. "Everything that grows on a farmer's farm belongs to that farmer," is the way the Gazette puts it. "To take even wild fruit without his permission is as much a misdemeanor as to take his corn, potatoes or chickens."

Improving the Sink.

An old wooden sink was made handier by attaching a zinc drain board. Three shallow grooves were beaten into the zinc, and it was nailed to the wooden frame with a slight bend, so the water easily drained back into the sink.

Farm Tractors.

Some of the best farm tractors are made in Canada. Some of the best are not. The first-named are the ones that are developed from that clever invention, the fish net. They hark back, therefore, to the problem.

The first article men who came to American found the housewives on the seashore, but they did find the Indians weaving fabrics of cotton, yucca and other fabrics, with elaborate patterns and designs. The new possessors were difficult at a certain sort of "domestic" work.

OBITUARY.

Mrs. (Dr.) Bristol.

On Saturday, Nov. 18th, at Oakville, there passed away a former resident of Napanee, in the person of Mrs. (Dr.) Bristol. She was a vigorous and active woman and showed little signs of age until quite recently, and without any specific ailment she passed quietly away.

Mrs. Amelia Maria Bristol was born in Dublin, Ireland, in 1842, and came to Canada when four years old, with her parents, who settled in Toronto, where her father, the late Thomas Jeffray Robertson, became the first principal of the Normal School there.

After the death of her parents she made her home with her sister, Mrs. R. S. Appalbe, of Oakville, from whose home she was married to Dr. A. S. Bristol, of Napanee, in 1869. They had three children, Emily F. Bristol, of Napa, California, Ethel I. N. Fisher, of Summerland, B.C., and Stanley Bristol, of Chicago.

Dr. Bristol died in 1887, and Mrs. Bristol continued to make her home in Napanee until 1908, when she removed to Oakville, where she died on Saturday last.

Service was held in the Anglican Church, Oakville, and the remains sent on to Napanee for interment in the family plot at Riverside, after a burial service in St. Mary Magdalene church.

The late Mrs. Bristol is survived by two sisters, Mrs. Appalbe and Mrs. Lewis, of Oakville; a brother, Mr. Robertson, of Toronto; Emily F. Bristol, of Napa, California, and Mrs. I. N. Fisher, of British Columbia, daughters, and Mr. Stanley, of Chicago, a son; Mrs. Saunders, Kingston, Mrs. (Sheriff) Hawley, of Napanee, stepdaughters, and Mr. Edmund Bristol, of Toronto, stepson.

ANNUAL BAZAAR

The ladies of the Churchwoman's Guild of St. Mary Magdalene Church are again to the fore with their annual Bazaar, which will be held in the Town Hall, on Friday and Saturday, the 1st and 2nd of December. There will be offered for sale a great variety of useful articles, suitable for Christmas presents. The apron department is replete in new and handsome designs and the needle-work is up to the standard set in former years. The Arts and Crafts table will be particularly attractive with many useful novelties. There will be an abundance of home-made Candy in artistic containers, and many donations are promised for the Cooked Food section. Friday evening will be given up to a musical and literary entertainment, and an address by Mr. W. S. Herrington, entitled "Glimpses of Europe", illustrated by fifty lantern slides. Admission to entertainment, 45 CENTS. 47a

QUESTIONS AND ANSWERS ON FORESTRY.

By the Canadian Forestry Association.

Q. What were the forest fire losses in Canada last year?

A. Final statistics are not available, but the number of fires exceeded three thousand and the damage was above ten million dollars.

Q. Has radio telephony been utilized yet for forest fire protection?

A. Yes, in several districts, and has been remarkably successful. The Air Board employed radio communication from their aeroplanes in Alberta and the system will probably be extended next season.

Q. Is the photographing of timber limits from aeroplanes yet a commercial success?

A. Yes, a company has been organized in Quebec and has completed most satisfactory aerial photographic surveys for banks and lumber and pulp companies. Accuracy has been fully attained and the speed of such surveys is astonishing.

Q. Has any valuation been put on the whole of the forest resources of Canada?

A. It depends what is meant by valuation. What, for example, is the value of a very young forest in process of early growth? There have been rough estimates of the standing timber of the Dominion as worth upwards of two billion dollars, but the figure is largely a matter of guess.

Q. What is the latest estimate of the stands of white and red pine in Ontario and Quebec?

A. These figures are a huge exaggeration. Estimates of these most precious of Canadian woods are falling rapidly as exact information becomes more evident. Mr. R. O. Sweezey, a well-known forest engineer, has just issued a statement showing that Quebec has not more than two and a half billion feet, instead of thirty billions. It is generally accepted that the Ontario pine stands will hardly exceed eight billion feet. Other provinces add little to the total, so that on the basis of these figures, Canada, once the land of "inexhaustible" pine forests, has about fifteen years supply left. This will, of course, be replenished to some extent by the young growth which in many places is abundant.

Q. I have been reading that the wretched living conditions, poor farms, barren rivers, etc., of Asia Minor are due to total destruction of forests. How far is this true?

A. So true that whole forested parts of Asia Minor, Palestine and much of southern Europe will never regain vigorous commercial conditions until they rebuild their forests. The flood-ups streams, washed out valley lands, and the utter sadly contrast back into the sink.

Q. What is the opinion of technical foresters and fire inspectors regarding the recent fire disaster in Northern Ontario?

A. That it was not really a forest fire at all, but a ground fire fanned by the terrific winds. Ground fires do not destroy the timber.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

Advice That Was Good

FOR many months we strongly recommended investors to purchase Canadian National Railway Fully Registered Debentures.

Time after time we advised the purchase of securities that we considered would appreciate in value.

Foremost amongst our recommendations during the past year was Toronto Suburban Railway 4½ per cent. debentures maturing 1961, secured by a First Mortgage on the Radial Line from Toronto to Guelph, OWNED and OPERATED by the Canadian Government.

The price of these debentures has advanced as follows:

Dec. 1921	Price	62.25	Yield 7.50 per cent.
Jan. 1922	Price	66.40	Yield 7.00 per cent.
	to	71.00	Yield 6.60 per cent.
Feb. 1922	Price	74.54	Yield 6.25 per cent.
	to	76.81	Yield 6.05 per cent.
June 1922	Price	77.40	Yield 6.00 per cent.
July 1922	Price	81.00	Yield 5.75 per cent.

Those who acted upon our advice and purchased at the low price of 62.25 now have a profit of over 17 points, which is equal to 27 per cent. on their investment, in addition to the interest which they have received regularly.

These Fully Registered Debentures are now being offered at a price of 83, to yield the investor approximately 5.65 per cent., at which price they are still a Bargain and a Safe Investment.

For those, however, who desire to purchase a good Security that has possibilities of increasing in value similar to those of the Toronto Suburban Debentures a year ago

We recommend Canadian National Railway 4 per cent. Fully Registered Perpetual Debentures,

originally issued by the Canadian Northern Ontario Railway, secured by a First Mortgage on this line from Toronto to Ottawa, now OWNED and OPERATED by the CANADIAN GOVERNMENT.

MOSCOW.

The brave hunters are all returning home from the wild north land, having bagged a goodly number of deer and some smaller game; but not one bear did they "smite." The farmers were never so well up with their work as they are this fall, and never better pleased with the results of a year's operations. That was some sermon handed out by the pastor of the Methodist Church last Sunday morning, on "Burden Bearing", and we sincerely hope he will give us a few more like it, so the people say.—Captain Donaldson, of Kingston, had a narrow escape from fatal injury, when some amateur nimrods accidentally fired a charge of small shot into his head and neck, while duck hunting on Varty Lake recently. The old story, accidentally shot.—All who like dandy pies and rousing songs, are going to Colebrook on Monday night, Dec. 4th, for the big pie festival and concert. We like to go with the crowd.

All The Clothes Out By 9 a.m.

Monday morning just started and your washing all done! You think it sounds impossible, but just use Rinso and see.

Really, the clothes soak themselves clean in the Rinso suds and the dirt runs away freely in the rinsing. Why? Because Rinso is the new modern method for the family wash and it is absolutely different from every other soap or washing powder you ever used.

Do not pour the Rinso granules direct from the package into the wash. Use it this way as it guarantees the best results: Dissolve half a package of Rinso in just enough cool water to make it like thick cream. Add two quarts of boiling water and stir. When the froth subsides you will have a clear, amber coloured liquid—the famous scientific, Rinso solution. Pour it into your tub of cool or lukewarm water, then put in the clothes and let them soak outdoors, two hours, overnight or as long as convenient.

Then give them a thorough rinsing and they are clean without any hard rubbing and without boiling.

If You Use a Washing Machine:

Soak your clothes for the usual time, then add more Rinso solution and work the machine. Rinse and dry—you will have a clean, sweet, snow-white wash.

Certainly Not a Washing Powder:

The fine granules of Rinso may look like a washing powder but just make this test. Dissolve a heaping teaspoonful of Rinso in a little hot water. In another cup dissolve a heaping teaspoonful of washing powder in boiling water. When they cool, see what happens:

ROD AND GUN IN CANADA.

The Bloomfield issue of Rod and Gun in Canada is up to the high standard of excellence in literary quality, and the illustrations are of a particularly attractive kind, quite worthy of the pages they adorn. Editor Hale has already laid out the material for the publishing season for 1922. There are several splendid articles and a number of beautiful colored plates to show the various species of game birds. "They Aren't Fishing." by G. Arthur Cantin, is humorous. "Camping Equipment" is the theme of several articles by J. E. Mallory, K.C., Barrister-at-law, Solicitor, Solicitor for Mortgagee.

MRS. CAL. C. SPENCER PASSES.

The news of the sudden death of Mrs. Cal. C. Spencer, at Midland, Ont., on Saturday last, came as a great shock to her many Picton friends. A baby girl was born to Mr. and Mrs. Spencer on Tuesday, October 24th, and both mother and babe were doing nicely. But on Saturday morning about 10 o'clock a sudden change for the worse took place and in a few minutes Mrs. Spencer had passed away, leaving a motherless babe, a sorrowing husband and an unusually large circle of devoted friends.

Until her marriage a year ago last June, she had spent her life in Picton at the home of her uncle and aunt, Mr. and Mrs. R. H. Hubbs, Paul St., where she came to live as an infant after the death of her mother. Her father, the late Dr. Wm. Kaylor, of Toronto, died about five years ago. A half brother, Dwight Kaylor, of Toronto, survives.

Frederica Kaylor was beloved by all who knew her. Possessed of a kindly, generous and sympathetic disposition, she endeared herself to all. In the home circle she was devoted and self sacrificing and this spirit was carried into all her life's work and duties.

A year ago last June she went to live in Midland and in the short time she had resided there, she won the hearts of all those who knew her. She was a member of the Methodist Church and an active worker in the Sunday School where she had a class of twelve little girls.

On Saturday evening a short service was held at her home in Midland. The house was crowded with sympathizing friends and her Pastor, Rev. Mr. Brace, spoke feelingly of the loss that the church and community had sustained in her death. A touching incident of the service was the singing of "Safe in the Arms of Jesus," by her class of little girls.

On Sunday the trip was made to Picton by motor hearse, Palmateer Bros., who were formerly of Picton, acting as funeral directors. Mr. T. J. Campbell, Superintendent of the Midland Methodist Sunday School, also drove to Picton. Mrs. Campbell, Mrs. A. Palmateer and Mr. Spencer coming with him. They reached Picton early Sunday evening, the remains being taken to her former home, where the funeral service was held on Tuesday afternoon at 2 o'clock, when a large number of friends assembled to do honor to the memory of the departed.

Her uncle and aunt, Mr. and Mrs. Gideon Grant, of Toronto, were at the funeral; also friends and relatives from Napanee, Tamworth, Niagara Falls and other places. The floral offerings, sixty in number, testified to the high esteem in which she was held.

Rev. Dr. Shorey conducted the funeral services, feelingly referring to the great personal attachment existing between the deceased and his own household. Mrs. T. S. Philp and Mrs. Chas. Hepburn sang "The Lord is My Shepherd," and "Safe in the Arms of Jesus."

The pall bearers were relatives and intimate friends. They were Messrs. R. Davison, J. H. Porte, H. Mallory, Dr. Reynolds, H. W. Bidell and John Hubbs.

Interment was made in the family lot in the Picton Cemetery.

OBITUARY.

Marshall James Oliver.

The remains of the late Mr. Marshall James Oliver were taken from

MPLETON & SON, Proprietors

NTARIO FRIDAY, DECEM

...ceased and was escorted up the aisle to the chancel steps, the coffin covered with wreaths, to the comforting and beautiful words of the Burial Service, "I am the resurrection and the life saith the Lord", etc. The service was then proceeded with, the Rev. A. H. Creegan reading the 1st Corinthians, 15, that magnificent composition of St. Paul, so full of hope and inspiration, and the Rector, the Rev. C. E. S. Radcliffe, reading the prayers and preaching a strong and impressive sermon. Three hymns were sung by the Choir, Mr. Fogs presided at the organ, and then the chanting of the Nunc Dimmitis brought the solemn service to a close, which many who were present expressed their warm appreciation of. The church was filled with a large congregation of relatives and friends, and almost all the prominent business men of the town, and amongst others was noticed Mr. W. B. Northrup, Clerk of the House of Commons, Ottawa, a warm personal friend of the deceased, and Mr. Mortimer Bérsar, of Wycliffe College, Toronto.

Mr. Marshall Oliver is the last member of a very united and one of the old families in Deseronto, and will be greatly missed in the town. The pall bearers were J. P. Ashworth, F. A. Rixon, Colonel Mabley, Thos. J. Ashley, W. T. Mellow, R. N. Irvine, Wilbert Ostrom, Geo. Sinclair, and Samuel Allen, and Mr. Allen, undertaker, performed his duties in his usual excellent manner.

Mr. Stickman, of Rochester, a cousin, who was with Mr. Oliver up to the last, has the sympathy of the community in her hour of sorrow.

A Deserved Diploma--Certificate of Health

Miss M—— lived in the Ottawa Valley, not far from the capital, with her mother and young sister. Well, seemed the natural thing when she left school, and, accordingly, she started out to get what she could for her services. Progress was not fast—but at least she did not stand still and her earnings were always increasing.

Within a few years it seemed that her little sister could get the chance that she had been denied—a University education. The study of the family went to Queen's, and this year, her plucky sister gives her the degree of Bachelor of Arts. Next year she's going to do better—Master of Arts is not her's where the sadness comes in. The older sister, known in health to overwork, is no longer able to attend. She is a patient at the Muskoka Hospital for Consumptives, but it is hoped that she too will shortly graduate—with a Certificate of Good Health.

Seventeen thousand patients have been cured for by the National Sanitarium Association in its hospitals in Muskoka and at Weston. Half of them have been restored to health and happy homes. You can share in this great work if you will. Contributions may be sent to Hon. W. A. Charlton, 223 College Street, Toronto.

"WHAT YOUR HUSBAND NEEDS"

"One night my husband came home looking so ill and worn out that I thought he would faint. I knew there was been something wrong with him for some time, but I could not get him to tell me what it was. Finally he confessed he was tired and sore all over. I public—that was to look well to—and spend more time at home to work instead of he was anything but well. I knew that his trouble was partly brought on by worry because for some months before he had been out of work. This put us in debt to the grocer and butcher and we had to give us more credit. It was being out of work that worried my husband. He wouldn't eat because he was afraid there would not be enough food for the children. We were so poor that we had to keep the children from school because they had no clothes. I knew that if I could only get my husband strong and well again everything would be all right. He is a carpenter by trade and when in good health earns good wages and he is always sober and industrious. But I knew that it was impossible for any man to do good work when he was ill and worried. I decided to speak to our old family doctor, who had retired from practice. When I explained how we were situated he gladly offered to do all he could to help us, although he didn't like to interfere with the new doctor's practice. Finally he said, 'What your husband needs is a good tonic and I know of nothing better than Carnol.' I thought that if our old family doctor recommends Carnol it must be all right. On my way home I got a bottle and before the first bottle had been used, my husband was a changed man. After he had taken four bottles his appetite returned, he had more energy, that tired look in his eyes disappeared and what is most important his wages have been more than doubled and he is now superintendent of the wood working shop in which he formerly worked as a carpenter. Thanks to Carnol our troubles are over and we are once more a happy and contented family."

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money.

How Flour, Feed and Grain sales are increased *by Long Distance*

Some quotations from recent reports:

"I use Long Distance entirely in my business (Hay and Grain). Sales are made quicker and with less expense than by travelling. Since Saturday I sold 2 cars of grain."

"I sold 70,000 lbs. jute sacks on which my commission was $100.00 at an expense of $2.50 for L.D. calls."

"I sold 8 customers in between $10,000 and $11,000 at a cost of $5 for Long Distance—a little over the price of two cigars."

"We regularly make Long Distance calls to customers from 4 carlend lots before placing orders for same."

"We receive reverse Long Distance calls on orders from customers."

We'll tell you how to apply Long Distance to almost any business

The weather for the past week has been delightful. Nearly everyone has finished ploughing. All that is needed now is a rain to fill the wells before it freezes up.—The roads are also being prepared for rain, as a large amount of road work has been done during the past week.—A large crowd attended the variety shower held in Victoria Hall, on Monday evening, for Mr. and Mrs. Wm. Taylor. They received many useful and beautiful presents. — Another wedding took place on Wednesday evening, when Miss Mabel Bulch and Wm. McCormick were married at the home of the bride's parents, Mr. and Mrs. G. Bulch. The ceremony was performed by Rev. Mr. McCree, after which all sat down to a dainty supper.—The remains of the late Joseph Henderson, Bath, a former resident of the Island, were brought here on Saturday, and placed in Glenwood vault. A large number attended the funeral. — Mrs. Lane, Pittsburg, attended the wedding of her niece, Miss Mabel Bulch. —Mrs. Wm. Baker, who has been visiting Mrs. A. Baker, has returned to her home in Toronto.—A number from here attended the funeral of the late George Baker, Kingston. — Mr. Murray Ward and family have moved to their new home in Bath.

For Baby's Woollens

The little woolly garments for Baby must be kept soft or they will irritate the tender skin. Washed in Lux suds, Baby's woollens will keep beautifully soft and fluffy. The thin satin-like flakes of Lux are made by our own exclusive process, and dissolve instantly into a lather as harmless as pure water itself.

Just dip Baby's clothes into a bowlful of lightsuds Lux and rinse them, squeeze out the surplus water and hang to dry.

There is nothing like Lux. Sold only in sealed packets—dust-proof

Messrs. John and Jarme Reedy and Geo. Simpson have arrived home from Welsh, Sask., where they have been employed during the season.—Mr. Albert Wilcox, who has spent the season at Rochester, N.Y., has also arrived home.—Mr. Robert Goodrich, local sportsman, has joined some of our local sportsmen, and is the welcome guest of Mr. and Mrs. S. Bell.—Mr. and Mrs. A. Bell and baby of Kingsmere, are also enjoying a pleasant visit with relatives here at their native home.—The wonderful and ubiquitous boys are lively again with local and outside sportsmen, and the number of live deer has very likely been considerably reduced. Dodd Phoa was also lucky enough to shoot and kill a very large bear.—The barn and some outbuildings on the farm owned by Richard Edwards, and occupied by John Both, were entirely destroyed by fire, with all contents, last Monday morning, including the whole of the season's crop, farming machinery and implements. Owing to the mild weather all the live stock was in the pasture fields, and had not been stabled that night, or the loss would have been still greater. The origin of the fire is a mystery. About four o'clock in the morning parties were passing near the premises observed no sign of fire, and when Mr. and Mrs. Both were awakened by the noise made by the flames and the falling remains of the burning buildings, the destruction was nearly completed. Mr. Edwards, who lives near Renfrew, carries a light insurance on the buildings, but Mr. Both's contents are not insured.

Successful Concert.

The concert given in the Parish Hall, last Friday evening, by Mrs. Powell, of Napanee, and local talent, was one of the best ever given in Camden East, the audience declared. All those who took part did very well indeed, and were heartily applauded. Next in order will be the Christmas Tree and entertainment under the auspices of the Church of England Sunday School. Particulars will be given later.

An Appeal for the Blind.

Every one who can will be asked to give at least one quarter, to the local appeal for the work amongst the blind, either November 27th or 28th. The Canadian Institute for the Blind has important work to do in Napanee. They teach the blind to read, to make basketry, rugs, mats, brooms, dresses, aprons and white wear. Do not be blind to this appeal for they can find and fill a useful place in life if properly trained.

Amherst Island Bridal Shower.

A shower for a recent Amherst Island bride and groom, Mr. and Mrs. William D. Taylor, was held on Monday evening, November 13th, when many beautiful and useful gifts were received by the young couple. They were married in the Amherst Island rectory on October 25th, and the shower, arranged by their many friends on the Island, came as a great surprise. Music was furnished by Gluna and McDougall's Orchestra for the dance that followed.

Missions in Syria and the East.

A very pleasant little gathering took place at Mrs. Freshman's, on Thursday, when she gave her paper on "Missions in Syria and the East". Mrs. (Rev.) Foster attended to the musicale to the delight of all present. Upon Dr. and Mrs. Freshman's first trip to the Orient, they visited the Missions in Palestine, Europe, Asia, and Africa, of which this paper is a reminiscence. Having visited Bermuda, crossing the Gulf Stream diagonally, 240 miles; crossing the Atlantic three times, from New York to Liverpool; and the "Norway Fiords" to the North Cape and Spitzbergen", the Land of the Midnight Sun; within 650 miles of the North Pole; on the Arctic Ocean, Mrs. Freshman can understand the heaving of the mighty billows of Old Ocean, as also the sweet calmness of the sea.

Wedding at Stella.

The home of Mr. and Mrs. George Balch was the scene of a quiet wedding on November 16th, when their only daughter, Mabel, became the bride of Wm. James, son of the late Wm. James, Marysburgh, County Down, Ireland. The ceremony was performed by Rev. W. T. Mellow, of St. Paul's Church, in the presence of a few immediate friends. At eight o'clock, the bride, who was unattended, entered the parlor, leaning on the arm of her father, who gave her away. The youthful bride was attired in a very becoming gown of pink silk, with bead trimming, and wore a pearl necklace, the gift of the groom. After the ceremony the bridal party proceeded to the guests to the dining room, where a sumptuous dinner was served. The bride was the recipient of many beautiful presents. Hearty congratulations and good wishes are extended to the happy couple.

Rupture Is Dangerous.

Why Always Be Compelled to Wear a Truss?

A scientific remedy can now be obtained that softens the calloused edges of the broken lining and puts it in a healthy growing condition, thereby allowing the opening to close naturally, after which the need of a support Truss or appliance is done away with. Why live in despair? Anyone ruptured, man, woman or child, should use Thompson's Renowned Rupture Remedy, which is put up in bottles containing a full three-months' treatment, which is sufficient in most cases. Wonderful results will be obtained from its use.

In fact it is guaranteed to give relief when directions are accurately followed, and if satisfactory results are not obtained, the purchase price will be refunded. This remedy will be mailed to any address in Canada upon receipt of price, which is only $5.00. Send Money Order or marked cheque; do not send cash in letter unless registered.

ONCE again the happiest and most welcome of all our days of interest are drawing near. We refer to our

TOYLAND OPENING

which will be held on

Mon. and Tues., Nov. 27 & 28

It has grown into such a large day that we have decided this year to take two days instead of one. Our store will be open in the evening during this opening to give a chance to those who are not able to attend during the day.

There will be Special Attractions for these 2 Days

consisting of real Grab Boxes, with a friendly Santa Claus in attendance—that nodding chap! Good music to liven the interests will be provided.

What about Xmas? The children are asking it with wondering and hopeful expectations of what Santa Claus is likely to bring them. The older people are asking it. May we help you to solve the problem and put you in the way of doing your Xmas shopping with pleasure, satisfaction and economy.

Our holiday stock this season is a marvel of beauty and elegance, and its variety almost unlimited.

We hope you will avail your-selves of the opportunity of attending this Grand Opening. Bring the babies along with you, and if you haven't one bring your neighbor's. Their young hearts will be gladdened.

FOR TURKEY DAYS

We are getting the greatest array of bargains rooted out in all our departments.

GENERAL STORE AT ODESSA BURNED.

MACHINE WAREHOUSE, POOL ROOM AND BARN ALSO DESTROYED.

Kingston Firemen Responded to Call For Aid. Cause of Fire Unknown.

One of the worst fires that has visited Odessa in a long time was that which broke out early Thursday morning at the rear of the general store occupied by D. Frink & Sons, shortly after two o'clock, and as a result the building and contents were destroyed, machine warehouse, also a poolroom and a barn. The fire was discovered in the rear of the store by a person passing through Odessa in a car and the alarm was immediately given and the whole neighborhood was aroused. No time was lost by the villagers in getting to the scene of the trouble and when it was found to be serious, the telephone operator sent calls out to all the country around for assistance, and in a remarkably short time there was a splendid response and a large number from the vicinity of Odessa were soon on the scene giving whatever assistance they could to stop the onrush of the flames.

It was soon seen, however, that the efforts of those already doing their best were quite fruitless and the fire was making great headway despite the desperate attempts to stop it. Word was then immediately dispatched to Kingston to Mayor Corbett asking for assistance from the local fire brigade to help in extinguishing the fire that was becoming very serious. Mayor Corbett readily gave permission for firemen to go to Odessa, and two cars were secured and six firemen, besides Chief Armstrong, went out to the scene of the trouble taking with them a number of chemical extinguishers.

The firemen started right in at their work as soon as they arrived on the scene and the chemicals did valuable work. The firemen were of great assistance to the villagers who had already started in to save what they could but their efforts, though desperate, could not stop the onrush of the flames. After hard work, however, the fire was finally extinguished about four o'clock, and the Kingston firemen then returned to the city.

Besides the general store, there was adjoining it a pool room and at the rear was a machine warehouse and barn. These soon caught fire and in less times than it takes to tell they were one roaring mass of flames and it was found that nothing could be done to stem the flames which were eating up the large building with great rapidity. The pool room was completely wiped out as was also the machine shop at the rear and the barn was burned to the ground. The buildings were owned by Toomey & Oswald, and their loss is a heavy one.

On the way out to Odessa from Kingston, the first car carrying the Chief and three firemen came across a fire on a pole and the chemicals were used on it and it was believed that the fire was out. The second car containing three other firemen, however, discovered that there was a ball of fire inside the pole and they had to chop it away before they could extinguish the blaze.

COAL AT COST IS AIM OF FORD.

MICHIGAN CONSUMERS MAY OBTAIN COAL AT LESS THAN $5.00 PER TON.

Announcement at Detroit, Mich., that Henry Ford has closed a deal by the terms of which he will acquire exclusive coalfields in Kentucky, adjacent to his private railroad, the Detroit, Toledo & Ironton, and will, as soon as possible, begin the shipping of coal to Michigan which is to be sold at cost to consumers, is regarded, locally at least, as the most Christian of the millionaire benefactor's many innovations. The names cost Mr. Ford about $2,000,000.00, it is stated.

Not content with this, however, is Ford's intention to double-track his railway in order that it may be able to handle its better advantage the heavy traffic which the coal business is expected to develop.

This latest move by the automobile magnate is construed as constituting a challenge to the coal barons of the country, who, Mr. Ford has frequently declared, are charging unfair prices. The Ford theory, that "things are out of balance when individuals are compelled to pay as high as $13.50 a ton for coal that costs at the mine head slightly over $3 a ton," is taken at Detroit in a literal sense.

If Ford can sell coal at $5 or $6 a ton and "break even", why cannot others do it? is the view taken by the "man on the street".

MINERALS IN THE DAIRY COW'S RATION.

[illegible] normal milk contains on average 75 pounds of mineral matter, so that a cow giving upwards of 30 pounds of milk daily is producing a volume of mineral matter daily. In addition to the mineral matter necessary for milk production, a liberal quantity necessary for the proper development of the foetus, especially during the last few months of pregnancy. The ordinary winter or stable ration which a cow receives during the flush of the milk flow may not provide minerals in sufficient quantity to supply the above demand, and, consequently, a call is made upon that stored in the body, mainly in the bones. If the supply stored up in the body becomes depleted, the milk flow will be adversely affected, for nature will not alter the composition of the milk nor interrupt the bodily functions of the mother or the development of the fetus. Arguing on this basis, it may be said that the supply of mineral matter might well be a limiting factor in milk production.

As a general rule, especially in summer dairying, the ration supplies all the minerals necessary, but in case of extra heavy production, combined with advanced pregnancy; of winter rations and on soils the crops from which are deficient in mineral matter, a supplementary mineral ration may be necessary. Grass supplies mineral matter in good quantity and in readily available form, so that as long as good pasture is available a supply of mineral matter is guaranteed. Even when the grass gets short or when winter feeding commences opportunity for natural minerals does not present. Every effort in connection may well be considered [illegible] some which are also found dairy feeds, the outstanding ones being bran and legumes, such as alfalfa and red and alsike clover. Liberal allowances of these feeds will go a long way towards supplying the deficiency. Where an extra supply of mineral matter is considered necessary, the [illegible] the form of straw, [illegible] and ground [illegible] sometimes, one pound of each to every [illegible] pounds of meal. At the same time, it is, at all times, a liberal allowance of common salt must be given, for it is from this that a good portion of the mineral requirements comes.

Liberated, supplementary mineral [illegible] to be recommended during the initial stages of the lactation period and during the rest period following, so that lime and phosphorus may be stored up for the heavy call which is made upon them during the [illegible] flow of milk. It may well be continued throughout the whole lactation period where production is abnormally heavy.

OF INTEREST TO WOMEN

Nurse Recommended Use of Lydia E. Pinkham's Vegetable Compound

Rothwell, Ont.—"I was weak and run down, had no appetite and [illegible] nurse. Two [illegible] who took [illegible] me told me [illegible] Lydia E. [illegible] Vegetable Compound, and [illegible] I am getting strong. I recommend [illegible] my friends, and [illegible] my testimonial."—Miss. C. MAXWELL, R. R. No. 2, Rothwell, Ontario.

The reason why Lydia E. Pinkham's Vegetable Compound is so successful in overcoming women's ills is because it contains the tonic, strengthening properties of good, old-fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, beneficial influence, and as it contains no narcotics nor harmful drugs it is a safe medicine for women.

Moved by Schuyler French, and seconded by S. S. Brown, that W. J. Gollinger be appointed to measure wire fence erected by Wm. Udns, lot 18, con. 2, and by James McMath lot 4, con. 4, Township of Richmond. Carried.

A by-law regarding a standard fence for Township of Richmond was drawn up. This by-law requires that a fence shall not be less than four and a half feet high, but over eight inches off ground, and that the space between the rail or wire, which ever it may be, shall not be more than eight inches.

Moved by W. J. Gollinger, and seconded by John Schermerhorn, Jr., that By-law No. 701 receive its third reading, be signed, sealed and finally passed. Carried.

Moved by Schuyler French, and seconded by W. J. Gollinger, that the following accounts be paid: Mrs. Doney, aid for November, $5; Nelson Harlin, aid for November, $5.00. Carried.

Council adjourned to meet on Dec. 4th, 1922.

THE CARE OF FARM IMPLEMENTS.

(Experimental Farms Note).

The annual loss due to ignorance or negligence in the care of farm implements is appalling. Figures have been published from time to time showing depreciation on implements from lack of shelter and care, still many farmers winter their implements in the field where they were last used, or scattered about the farm yard. A manufacturer, if he is to prosper, must keep his production cost at the lowest possible figure. The same applies to the farmer, who is no less a manufacturer, and one of the ways in which he can materially cut down his expenses is in the proper care of his implements and tools.

All implements when not in use should be under cover, and not left exposed to the influence of the weather. A machine or implement shed need not be an elaborate affair. If it can be wholly closed, so much the better. It should be conveniently situated, and the front should consist largely of roller doors, so that any implement can readily be obtained. As to the arranging of the various implements, a binder being used practically at one season of the year, may be stored in a far corner, leaving space nearer the door for mowers, ploughs and other implements used at various times throughout the season.

A stitch in time saves nine, and many an expensive repair item might be saved by repairing a machine at the first appearance of trouble. When implements are taken out they should be looked over carefully, nuts tightened, adjustments and trivial repairs made, which if left might develop no end of trouble. Far too little machine oil is used, causing excessive wearing on bearings and castings, and working untold injury on the machine. A coat of paint not only adds to the appearance, but greatly prolongs the life of both wood and iron. Polished surfaces, such as plough shares and mould boards, should be smeared with grease or painted with kerosene and lamp black when not in use.

A good farmer must be a good mechanic, more especially if he operates tractors and other large machinery, otherwise his repair items will be high, and the usefulness of the tractor or machine greatly impaired. If possible avail yourself of some course at a tractor school, and become familiar with the intricacies of your motor. In this way you will obtain better service, and the repair items and mechanics' bills will be reduced to a minimum.

A work shop, with a small forge and anvil, and some good tools for both wood and iron, is a great convenience, and indeed a necessity on many farms. Having this, many repairs and adjustments can be made, plough shares pointed and sharpened, and a host of other things done that would necessitate a trip to the local blacksmith or machine shop.

No one takes more pride than the owner of a well-ordered and cared-for farm where there is a place for everything and everything in its place.

ONTARIO ARCHIVES TORONTO

Now that I know how to use Rinso — why its just splendid.

Knowing how to use Rinso correctly means finding washday less a day of wash days. It's well worth while. Let us ask—are you making the same mistake as Mrs. Carr?

WHAT WAS MRS. CARR'S MISTAKE?

She forgot that Rinso is not the same as ordinary soap, flakes or washing powders. She did not give Rinso an opportunity to show its wonderful power of washing clothes clean just by soaking. She used to put Rinso direct from the package into the tub without first making the famous Rinso liquid.

The result was that the fine granules of soap essence of Rinso were not properly dissolved and their value was not spread evenly through the wash so as to loosen all the dirt in every garment—ready to come away in the rinse. The result of course was disappointing.

THE PROPER WAY TO USE RINSO

Now this is the proper way to use Rinso—for ordinary washing—For each tubful of clothes take half a package of Rinso put in a little cool water and stir until it is in a cream the roughly dissolved. Add two quarts of boiling water and stir well. When the froth subsides there will be a clear amber coloured liquid. Partly fill your tub with cool or lukewarm water and add the Rinso liquid. Put the clothes in, so that each is covered and soak the things thoroughly overnight. Do not just dip them up and down.

In the morning rinse the clothes until the water runs clear. Only soiled collars and cuff edges may need a slight rubbing with your fingers. No need for washboard or boiler—just wring and dry.

EXTRA SOILED GARMENTS

Grease or badly soiled garments—soak overnight in lukewarm Rinso suds, first rub a little moistened Rinso as it comes from the package on badly soiled spots. Next morning add warm water and rinse. The dirt will just float away entirely.

FOR THE WASHING MACHINE

Rinso is splendid. Soak the clothes for one hour, two hours, overnight, what long as convenient, then add a little fresh Rinso liquid and operate the machine. Rinse thoroughly and the clothes are clean—all the dirt will run away.

Follow these simple directions and you will be delighted. Monday after Monday with the Rinso way of washing.

Stranger—Beg pardon, sir. How far is it to the next station?

Golf Bug—I should say about a full drive, three brassies and a putt.

Germs disappear when treated with Hollaway's Corn Remover without leaving a scar.

Jimmy—Dearest, I must marry you

Skimmy—Have you seen father?

Jimmy—Often, honey, but I love you just the same.

Peevish, pale, restless, and sickly children owe their condition to worms. Mother Graves' Worm Exterminator will relieve them and restore health.

"Don't you ever get homesick?"

"No," replied Senator Sorghum. "After being buckled a few times by my constituents I'm perfectly satisfied to reside in Washington, D.C."

It Will Relieve a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Eclectric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will usually stop the cough because it allays the irritation in the throat. Try and prove it.

"We find the prisoner not guilty by reason of insanity," announced the jury.

"But the plea was not that of insanity," remarked the court.

"That's just the point we make," explained the foreman. "We decided that any man who didn't have enough sense to see that an insanity plea was the proper thing must be crazy."

Cuts and Bruises Disappear.—When applying first-aid to cuts, bruises, sprains, sore throat or chest and any similar ailment, use Dr. Thomas' Eclectric Oil. Its healing power is well-known in every section of the community. A bottle of Dr. Thomas' Eclectric Oil should be in every medicine chest ready for the inevitable that may always be anticipated.

A popular reader tells this one, the origin unknown: The prosecuting attorney had just concluded a somewhat difficult witness. Finally he asked the man if he was acquainted with any of the men on the jury. "Yes, answered the witness, more than half of them." "Are you willing to swear that you know more than half of them?" demanded the lawyer. "Why, if it comes to that I'm willing to swear that I know more than all of them put together," came the emphatic reply.

Long Standing Aches. Many have suffered for years from aches, and have tried as many so-called remedies, only to think that there is no real help for them. They should read the letters received by the manufacturers of Dr. J. D. Kellogg's Asthma Remedy from hundreds of such sufferers, separate as their own. Even in long-neglected cases this famous preparation relieves prompt help.

I'm going to my mother's." "Dear me," said the interviewer, "I'm very sorry to hear that. Mr. Tomkins will be lonely without you." "Lonely, Donald!"

"I Was Run Down"

"Body was completely covered with Boils"

"If you have ever had boils, you know how painful they are. I was almost a living skeleton. Finally I developed a carbuncle, and I said I would even go so far as to say that I would rather kill or cure myself, so I began to take my own life. I suffered from the most excruciating pain. After nearly one week under the influence of the drug which I purchased, I was almost dead. I was completely covered with boils. I was unable to move, even the slightest movement. I was unable to eat, and could possibly live on a bit cake of bread per day. I was a living skeleton. After nearly six weeks of suffering, I was induced to try Dr. Chase's Nerve Food, the last which I purchased with my remaining dollar. I was unable to believe that any medicine could do me any good, but I was induced to do so. I had not taken more than one box of Dr. Chase's Nerve Food when I felt that I was getting better. I continued to take the treatment, and in a few months I was a well man. I have never had such health as I have since I took Dr. Chase's Nerve Food. I am now almost forty-five years of age, and I have never had such good health as I have since I took Dr. Chase's Nerve Food. I would say to all who are suffering from nervous debility, or any disease, that Dr. Chase's Nerve Food will cure them if they will only give it a fair trial. I am now almost forty-five years of age, and I have never had such good health as I have since I took Dr. Chase's Nerve Food. I would say to all who are suffering from nervous debility, or any disease, that Dr. Chase's Nerve Food will cure them if they will only give it a fair trial."

LUX

Is recommended by leading maker of Children's Woollens

The finest woollens can be laundered repeatedly the gentle Lux way. One of the well-known makers of infants and children's knitted garments, says:—

"Lux is ideal for woollens. It is so pure that it cannot injure the sensitive wool fibre."

Wash your woollens the gentle Lux way. Just press the rich suds through the garment again and again, and in a moment it is clean, it is new, and as soft and fluffy as the day you first saw and loved it. The thin, satin-like flakes of Lux which are made by our own exclusive process dissolve quickly in hot water.

This is nothing equal to Lux—it is sold only in sealed packets—don't buy substitutes!

Advice That Was Good

Several of our customers recently resold Toronto Suburban Railway Debentures to us at 81.

We sold these Toronto Suburban Ry. Debentures to our clients in December, 1921, at a price of 82.25. This shows an advance of 184 points, equal to a profit of over $300 on each $1,000 invested, in addition to the interest while the investor received regularly when due.

The above is only one example of securities which we have recommended during the last few years that have shown similar appreciation in value.

For those who desire to purchase a sound security yielding a high interest return with good possibilities of increasing in value

We recommend Canadian National Railway 4 per cent. Fully Registered Perpetual Debentures,

originally issued by the Canadian Northern Ontario Railway, secured by a First Mortgage on the line from Toronto to Ottawa, now OWNED and OPERATED by the CANADIAN GOVERNMENT.

"Don't Worry About Me" Tom's Assuring Message

On a little farm away up north Tom lived with his parents and one brother. His father, well up in years, found himself unable to continue the hard work of farming, so Tom took up the burden. The income was not large, and the lad started up with a lumber plant working nearby—sawing logs, also doing "jobs" and driving the teams. After their three cows, John Farrar and Tom found enough feed and profit to feed a herd of 15 head of cattle besides a few pigs. Then they added a horse to their herd and finally a second team. Tom's brother was never strong and his health failed more and more. After trying various ways to help him, Tom decided he must be sent to the Muskoka hospital. His heart and other troubles were diagnosed, but the doctors said that by proper treatment he might be made fit for those active jobs. Tom's letters home were always cheerful, telling how he was getting along, but his brother grew weaker and weaker. Finally he was taken to the hospital, and Tom was left to carry on the farm alone. He wrote cheerfully, "Don't worry about me. The people here are trying to cure me, and I'm getting better every day." But Tom knew that his brother was dying, and he was right. He died a few days later. Tom's letters home were always cheerful, telling how he was getting along, but his brother grew weaker and weaker. Marshall Oliver was the last member of one of the oldest families in Deseronto.

Birthday Party at Lime Lake.

A very enjoyable time was spent at the home of Miss Hazel Bird, on Friday evening, Nov. 24th, when about thirty-five of her friends gathered in honor of her 16th birthday. The evening was pleasantly spent in games and music, after which delicious luncheon was served, at which a beautiful birthday cake, with sixteen candles, was the centre of attraction. Miss Hazel's friends all remembered her with various beautiful gifts. Having spent a very pleasant evening, the guests departed for their homes, after wishing the fifteenth birthday many happy returns of her birthday.

Silver Medalist in Typewriting.

Miss Evelyn McKay, a student of the Napanee Collegiate Institute, has been awarded a silver medal by the Underwood Typewriter Company for having written, in one minute, 60 words with only one error. Miss McKay is a daughter of Mr. and Mrs. Thomas McKay, Centre street, and has been a student of the Napanee Collegiate Institute for the past two years. She has been taking a course in typewriting, and has made remarkable progress in the short time she has been at it. Miss McKay is to be congratulated on her success, and has the best wishes of her many friends for future success.

TURKEY DAYS.

Napanee, according to the buyers who come here year after year for the purpose of buying poultry, is now recognized as the best poultry buying centre in Ontario. On Wednesday and Thursday the annual avalanche of geese, turkeys, chickens and ducks descended on the town. The buyers were ready to receive them, and with the assistance of local help and the local banks handled expeditiously the varied collection of fowl. They came in wagons, buggies and cars, packed in crates, trunks, bags, or boxes, and made an inspiring sight as they lined up on the streets and market square.

Not only was the quantity brought in greater than at any other point, but the quality is good, and the poultry well dressed.

Among the houses from the outside who had representatives here were Gatehouse, of Montreal; Swift Canadian, packers; Harris Abbatoir; White, packers; Poulin, packers, of Montreal; Gordon, of Gananoque; the C. P. R.; A. Neery, of Montreal, besides M. B. Mills and Paul & Marsh, of Napanee.

The prices paid were a surprise even to the farmers themselves. For chickens 25c. to 30c., hens 18c. to 22c., geese 22c. ducks 25c., and turkeys 30c. to 45c.

Total figures as to the amount handled are not available, but the amount of money paid out of the local banks up to the time of going to press was somewhat over $75,000.00.

ST. MARY MAGDALENE BAZAAR.

The bazaar given by the Ladies' Guild of St. Mary Magdalene's Church was so manifestly successful as to richly repay the ladies for their strenuous efforts in preparing for so great an undertaking. The proceeds from both days' sales reached the sum of $1,000.00. Tea was served each afternoon and a concert given on Friday evening. Before the sale of goods, the booths, of fancy work, aprons and dresses, cooked food and candy, received critical attention, were carried on and a great deal of fun reached. Miss Alice Preston was the lucky enough to draw the beautiful quilt, which, during the beautiful spread; Mrs. W. A. Grange, the card table; Dr. Roy White, the luncheon set, and Miss Lola Wright, the doll. The doll was named "Hilda", but as no one guessed the name, it was necessary to draw for the winner. Mr. Charles Walters drew the lucky ticket.

On Friday evening an illustrated lecture was given by Mr. W. S. Herrington, entitled "Sketches from Dickens", and several little girls gave a May-pole dance, led by Miss Rosetta Daigle.

SELBY ANNIVERSARY AND FOWL SUPPER.

Forty years ago, when the Rev. John Ferguson was pastor, a substantial church edifice was erected for worship by the Methodists of Selby and the district surrounding. A number of years ago, the Methodist church was burned, but the splendid masonry of beautiful limestone stood the test of the fire—a monument to the skill of the masons who built the edifice. The church was recently rebuilt, and this village, as much as any other

Northern Ontario Still Needs Help

Now that winter has gripped the North help is more urgently needed than ever. Here is a typical scene—a little boy who travels many miles for the daily supply of food, for a large family. His father is building a new house to replace the one destroyed in the big fire. In the meantime mother and the children live in an old shack on the outskirts of Cobalt.

TOWN COUNCIL

The regular meeting of the Council was held in the Council Chamber, on Monday night. His Worship Mayor Graham presided.

The members present were Reeve Paul, Councillors Boyes, Ming, Perry, Steacy and Wilson.

A communication was read from the Northern Ontario Fire Relief Association. They require $1,000,000 immediately for relief. The money is urgently needed to relieve the distress in the burned district and to tide over for the winter. A grant equal to one-half mill on the total assessment was asked for.

The Mayor and Council were in sympathy with the appeal, but could not make a grant at present, as all appropriations for the year were expended. It was decided to leave the matter to the in-coming Council for 1923 to deal with.

On motion Reeve Paul was given power to make arrangements for an interview with the Commissioner of Highways in respect to procuring a highway's quarry at Napanee.

A by-law was passed, authorizing the Mayor and Treasurer to borrow from the Bank of Montreal the sum of $25,000 to meet the current expenses of the town.

In the matter of Albert Smith's application to erect a gasoline pump in front of his store on Dundas St., taken up at the last meeting of the Council, a motion was made to reconsider the action taken on this application, but was defeated. Lost.

ACCOUNTS.

The following accounts were ordered paid:—

Bermingham & Son, supplies, $2.45; Templeton & Son, stationery and advertising, $30.60; Chief Barrett, collection of dog receipts, etc., $7.65; P. Gilcasson, coal for town hall, $7.25; Coal for Town Hall and Fire Hall, $71.25; W. L. Reeve & Son, lumber, $10.41; C. V. Mcdermaid Co., $2.50; Kingston General Hospital, grant, $300.00; Public Library grant $300.00.

The Bell Telephone account, and an account of the Town Treasurer, for postage on cheques, amounting to $71.00, were referred.

To Oil for the Athlete.—In rubbing down, the athlete will find Dr. Thomas' Eclectric Oil an excellent antiseptic. It renders the muscles supple and allays pliable, takes the soreness out of them and strengthens them for strains that may be met unon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a liniment.

WOODBINE — WESTBROOKE.

The weather at time of writing is very bright. Farmers have their fall ploughing all done and are ready for the cold day. Last winter will bring Smith, Mr. W. L. Grass has purchased a new Chevrolet sedan.—Mr. Geo. Clark and son, Harold, also Miss Margaret Grass returned on Monday from Toronto, where they attended the Queen's-Arrmounts football game.—Mr. C. McGuin, Bath, called at H. Lockwood's on Wednesday.—Miss G. Cassel spent Sunday with her parents here.—Misses Mary and Minnie Lockwood spent Saturday last in Kingston on an ots of Mrs. M. Black, 78 Market St.—We are sad to hear that Mr. J. Cassel is improving, after a very brief illness.—The hunters have returned, full of glee, to look that they brought home a supply of venison.—A very serious incident occurred at the home of Mr. Curtis Walker, when fire nearly destroyed their home. Mrs. Walker was alone at the time, and at twelve o'clock she felt very uncomfortable with the heat of the house, and on rising from her bed found that the partition was on fire. With the aid of Dear pails of water she was able to extinguish the flames.—Mrs. Fred Conway spent an afternoon recently with Mrs. H. Revell.—Mr. and Mrs. Harvey Lockwood spent Sunday last at Collins Bay.—Mr. and Mrs. L. Ogrlan have returned from the West, and are moving into Mrs. T. Stowell's house, as the latter is going to Toronto for the winter.—Mr. and Mrs. Ross Revell and little daughter, Thelma, spent Sunday last with Mr. and Mrs. J. Cassel.—All are looking forward to Christmas and Santa, also the 3rd entertainment in the hall, for which all the young people are practising.—All are sorry to hear that Mr. Delbert Amas has sold his property here and intends moving to Kingston in the near future.—Mr. Walter Hands has his fox pen nearly completed. He intends raising black foxes.

ARDEN.

Death has again entered our midst and claimed an old and respected citizen, Mr. John Tryon. Deceased has suffered for some time with Bright's disease, and was in his 72nd year. Besides his aged widow, he leaves three sons and one daughter. The funeral service was conducted by the Rev. Robt. Stocker, in the Elm Tree church and interment took place in the Arden cemetery.—Mr. John Paul is visiting his son, Harry, in Smith's Falls.—Mr. Tom Loyst has returned home again, after spending some time in the north.—Mr. J. E. Barker is attending the Temperance Convention which is being held in Toronto.—Mr. and Mrs. Sam Barker have taken a little boy to raise.—Born to Mr. and Mrs. Amos Hughes, a son. Mother and child doing fine.—Mrs. Ross Barr is on the sick list, suffering from blood poison in her face.—Mr. and Mrs. Chas. Snider spent Sunday with Mrs. McGregor.—The little infant daughter of Mr. and Mrs. Wm. Wentworth died on Nov. 17th.—Mr. and Mrs. Arch Godfrey spent Sunday with Mr. and Mrs. Fred Gendron.

DAIRY PRODUCTS.

Their Value in Promoting Physical and Mental Well-Being of Both Child and Adult.

"Whatsoever a man soweth that shall he also reap", was the text that Miss Helen G. Campbell, of the Dominion Dairy and Cold Storage Branch, selected on which to found a recent address in which she undertook to glorify that Dairying was Everybody's Business. The speaker explained that it was not her intention to deliver a sermon, but, as a matter of fact, she delivered a homily so full of truths calculated to benefit and inspire the hearers that it might have been given voice in any edifice, sacred or secular.

One of these truths that came out early in the address, and which every parent should pay heed to, was that to train a child in good food habits is one of the fundamentals in making one or her a success in life. In her address, Miss Campbell then proceeded to describe the various virtues that dairy products possess, not alone as body-building and mental development, but also in promoting capability of accomplishing big things. She traced plant life through absorption by the cow to the making of milk and cream and thence to butter and cheese, which all contained that element necessary to every form of life, namely vitamines. In our climate, she said, where homegrown green vegetables were not obtainable at all seasons, the cow should be a large factor on our dairy products, and implied that there was a penalty for those who ever we on a penalty. In the health we should enjoy. She quoted Stefansson in proof of the milk provided Eskimos in the Arctic, and Dr. McCollum, the widely known scientist, as saying in effect that there is a deficiency disease in human food. The ordinary Canadian diet was not to be lacking in sufficient quantity, supplied this deficiency other quantity than any other human food. Lime was an element that the child. Having pointed out how business men and professional men, by the plentiful use of dairy products in the preparation of their own lunch and that of their employees, Miss Campbell declared that the [illegible] that connected with dairying and in their relation to the home, any more faithful followers of the doctrine of "Health any upper class of people. NURSE THINKS NOTHING BETTER

Lydia E. Pinkham's Vegetable Compound Advised for all Women in Poor Health

Toronto, Ontario.—"I took Lydia E. Pinkham's Vegetable Compound for years and it is the only patent medicine I ever recommend. I am a nurse and if I find a woman is in poor health I always tell her to take it. Although you know that doctors and nurses do not use patent medicines I must say that I think there is nothing better than your Vegetable Compound. When I first took it I was so tired when I got up in the morning that I could not eat, and when I went to bed I was too tired to sleep. My mother-in-law told me to get Lydia E. Pinkham's Vegetable Compound and that was just what I wanted so I tried it and only took two bottles when I felt better. Since then I have found that there is nothing that makes me feel so well, for it seems to build my system right up. I don't know any other medicine that has done so much for women."—Mrs. W. H. PARKER, 19 Wellesley Ave., Toronto, Ontario.

Women testify again and again that they have been helped by Lydia E. Pinkham's Vegetable Compound, "after other medicines have failed." It has been tried for nearly fifty years and not found wanting.

If you are suffering from any of the various ailments which accompany female weakness try Lydia E. Pinkham's Vegetable Compound.

Mr. Bowen is building up a herd of the pure-bred stock, for which he entertains a fancy.

A Great Success.

The annual Bazaar held by the Churchwoman's Guild of St. Mary Magdalene's Church, occupied the Town Hall on Friday and Saturday. A thriving business was done by the ladies in charge of the various tables of fancy work, aprons, arts and crafts and cooked food. The attractive candy table and the afternoon tea added to the social enjoyment. The receipts, at the time of writing, are reported to be nearly $1,000.00, with more to come. Miss M. Stevens gave a very acceptable piano solo, and Mrs. Powell contributed one of her charming readings. Some of the little girls trained by Mrs. Powell, then assisted Miss Rolande Dalton to exhibit a "Scene from Fairyland". Miss Dalton is a very graceful dancer, and this number was enthusiastically received. The chief feature of the programme was Mr. W. S. Herrington's lecture on "Glimpses of Europe", illustrated by many fine lantern slides, and presented in his usual effective and vivid manner.

Re Christmas Decorations.

Following our usual custom at this season of the year, we draw your attention to the danger to life and property from Christmas decorations, such as tinsel, scenery, cotton, etc., to prevent fire, etc. Displays of this nature, and the lighting arrangements in connection therewith, and very considerable traffic ordinarily risks of fire, also [illegible] material is often used not being over heating and electric decorations, [illegible] pipes, [illegible] light bulbs, etc. Examine your [illegible] and circuits are properly fused and not overloaded by the addition of temporary lights.

Examine your [illegible] appliances and see that they are sufficient, in good order and readily accessible.

See that all exits are plainly marked and not obstructed.

Remember that nothing can render these displays absolutely safe, and that if accidents are not to mar the festive season, constant vigilance and care must be exercised.

YARKER.

Our town has had two close calls of late in the way of dangerous fires, one on each side of the river. It was not our good fire protection that saved the Village from being practically wiped out. A few weeks ago the fire at W. Connolly's, on the east side, was seen in time and extinguished by the prompt action of the citizens who were at church nearby. On Wednesday of this week, when the valuable property of J. T. Main was totally destroyed, the wind was blowing from the north and blew the fire away from the west side of the village. What surprises many people is that the insurance companies will insure property situated in a fire trap that has no efficient protection against fire. It is to be hoped that the citizens of Yarker and Colebrook will take action at once and ask the Township Council to join with the villagers in securing a chemical engine to protect our homes and lives against fire, or possibly arrangements might be made with the C. N. R. authorities for the use of the large water tank on the hill at the west side and install a complete hose system from there, connecting the east side with the pump house at the river. A few hundred feet of hose would do the whole village. It stands to reason that a village as compact as Yarker, and built of wood to the extent that it is, should have more and better protection against fire. In the meantime, since the whole country-side has never paid one dollar for fire protection to safeguard property owners against loss, there should be some worth while effort made to share the heavy financial loss sustained by those who lose their all by fire. It is to be hoped that the city fathers will take prompt action in these matters.

Since your scribe wrote the above a meeting of the citizens was called and a representative committee of six men was appointed to proceed at once to secure facts and figures in relation to the most suitable fire protection for the village. The committee called in the agent for chemical fire engines and received much useful information on one important line of protection. They will proceed to interview the C. N. R. authorities in regard to the use of the large water tank at the station as a source of supply for a water system. The committee will report soon.

Help buried Ontario over the Winter/

MEN and women of Ontario—it is time that we should all realize the terrible completeness of the fire calamity that devastated Northern Ontario in the early days of October. Fires and calamities we have had before, but never such complete destruction as this.

Over 1,200 square miles laid desolate, town after town nothing but a bleak expanse of ruins, hundreds of farms swept bare, thousands of your fellow citizens "cleaned out" and thrown abruptly back into man's primeval struggle against nature and her grim forces: fire, hunger, ice and the stark northern cold.

Give 1,800 families a fighting chance to get on their feet. Temporary relief must go on. We must not fail the North.

Winter the relentless foe

Coming as this terrible fire did, in the autumn, with the harvests in, with the townspeople already preparing for the rigors of winter—the complete destruction wrought is the harder to overcome.

Thousands of people at first had literally no place to lay their head, little to wear and nothing to eat. They had to be taken care of at first, somehow, and then, desperately as the days went by, and the cold grew more intense, rough but serviceable standard shacks, 16' x 20', have been replacing tents, old street cars, packing boxes and sheet iron. A regular food supply has been established, and rough clothing is being distributed.

What can a man do with his house a blackened hole in the ground, his barn a charred heap, his work shop a twisted pile of rubbish—and a northern blizzard raging over all?

Temporary Relief Until Spring

In the name of humanity we must see these fellow citizens through until Spring opens up the land and general business activities are resumed. Money must be forthcoming from the citizens of Ontario, from municipalities, industries, societies, public bodies, lodges, churches, etc.—not for rehabilitation or re-establishment, but for the supply of bare necessities, "temporary relief" in fact, to the stricken North.

The Brighter Side of the Picture

Everywhere throughout the fire swept district one hears only a strong, manly note of confidence, of resolution to go forward, to "stick to the country" if body and soul can be held together, to make good once more, to restore the hundreds of burned farms, to rebuild the eight or ten destroyed towns. And it will be done if the stream of temporary relief from Old Ontario does not dry up.

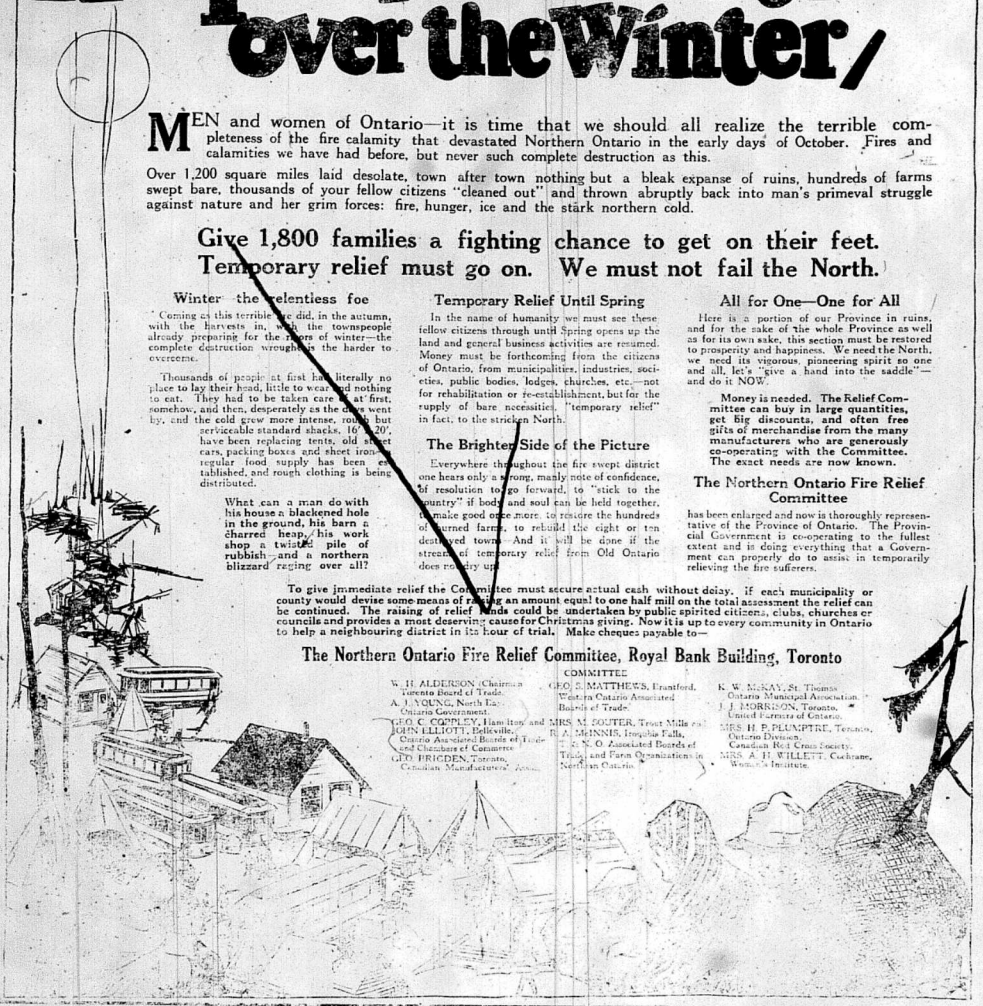
All for One—One for All

Here is a portion of our Province in ruins, and for the sake of the whole Province as well as for its own sake, this section must be restored to prosperity and happiness. We need the North, we need its vigorous, pioneering spirit so one and all, let's "give a hand into the saddle"—and do it NOW.

Money is needed. The Relief Committee can buy in large quantities, get big discounts, and often free gifts of merchandise from the many manufacturers who are generously co-operating with the Committee. The exact needs are now known.

The Northern Ontario Fire Relief Committee

has been enlarged and now is thoroughly representative of the Province of Ontario. The Provincial Government is co-operating to the fullest extent and is doing everything that a Government can properly do to assist in temporarily relieving the fire sufferers.



To give immediate relief the Committee must secure actual cash without delay. If each municipality or county would devise some means of raising an amount equal to one half mill on the total assessment the relief can be continued. The raising of relief funds could be undertaken by public spirited citizens, clubs, churches or councils and provides a most deserving cause for Christmas giving. Now it is up to every community in Ontario to help a neighbouring district in its hour of trial. Make cheques payable to—

upture Is Dangerous.

Why Always Be Compelled To Wear a Truss?

A method recently given to the medical profession by an eminent physician has relieved many unfortunate sufferers of rupture in a simple, painless manner, by a method entirely different from the use of a truss or appliance to be worn always. Why live in daily fear? Anyone ruptured, man, woman or child, should write Thompson's Rupture Remedy, Dept. 1, Windsor, Ont., which is put up in bottles sufficient for a full three months' treatment, which is sufficient in most cases. Wonderful results will be obtained from its use.

In fact it is guaranteed to give relief when directions are accurately followed, and if satisfactory results are not obtained, the purchase price will be refunded. This remedy will be mailed to any address in Canada upon receipt of price, which is only $5.00. Send Money Order or marked cheque; do not send cash in letter unless registered.

COUNTY COUNCIL

(Continued from last week.)

Thursday Afternoon.

Mr. Paul presented a report re grants to Continuation Schools, High Schools and Collegiate Institute, which was adopted.

Deputations, representing Amherst Island, Bath and Odessa Continuation Schools, waited upon the Council concerning requisitions and grants. The matter was fully discussed.

On motion, Denbigh Continuation School was granted $150.00 special grant. Bath and Amherst Island Continuation Schools were granted $150.00 each special grants.

A motion to grant $150.00 to each High and Continuation School in the county was lost.

A motion was passed, requiring all High and Continuation Schools to present requisitions in accordance with the statutes.

On motion the Village of Newburgh was granted $242.13, and the Village of Bath $182.57, on County Road account, to be charged to their 1923 appropriations.

Friday Morning.

Mr. Robertson, of Sidney, seconded by Mr. Young, that the motion making special grants to Bath and Amherst Island Continuation Schools, be reconsidered. Motion carried.

Mr. Kellar moved, seconded by Mr. ... that the motion making ... grants, be rescinded. Motion carried.

... and nays on above motion ... by ask for by Mr. Miller.

Yeas—Messrs. Campbell, Fisher, ... Hennah, Keller, Loyst, McNeely, ... Platts, Young, Miller—9.

Nays—Messrs. Elliott, Johnston, ... Mahon, Paul, Rodgerson—8.

Moved by Mr. Elliott, seconded by Mr. Keller, that this Council recommend to the Council of 1923 the consideration of a grant to the Northern Ontario Fire Relief Committee.

The first report of the Finance Committee was presented, recommending a grant of $200.00 to the Industrial and Addiction Hospital Society, payable in 1923. Referred to the Council of 1923 for consideration.

The secretary of the Lennox Women's Institutes reported five Institutes in active operation, and asked the usual grant of $15.00 for each, also that Kingston and Amherst Island Women's Institutes receive a like grant.

On motion above grants were ordered paid.

Account of Boyle & Son, Court House, $36.67; Boyle & Son, Gaol, $17.82; F. L. Hooper, Registry Office, $3.20; F. L. Hooper, Court House, $12.30, were ordered paid.

Account, Templeton & Son, $19.20, was referred to Finance Committee.

Mr. W. J. Jewell was granted $100 on account of contract for Court House repairs.

Friday Afternoon.

Mr. C. C. Main, County Representative of the Ontario Department of Agriculture, addressed the Council on the work accomplished by the office during the past year. Mr. Main advocated the appointment of an Agricultural Board to advise with the office in laying out the work of the office.

An open discussion took place as to the advisability of forming an Agricultural Council.

The matter was referred to the Agricultural Committee to report.

On motion Mr. Cockill was instructed to order maps of the County for distribution to each of the schools of the County.

Township of Richmond, account for wire fence boxes on County Roads, $66.25, to be charged to Richmond on road, 1923.

Account, County of Hastings, work on Sunday roads, $135.57, ordered paid, and charged Richmond County Road account.

On motion Mr. T. V. Anderson and Reeve Kellar, of Richmond, were instructed to meet representatives from Hastings County to adjust Highway accounts.

Account, G. S. Reid, searching titles, $10.15, was ordered paid and charged to Survey account.

G. S. Reid, account, re preparing abstract index book, $11.00, was ordered paid.

F. Ford, contingent account, $3.10, was ordered paid.

The County Property Committee reported the purchase of 60 tons of coal at $16.25 per ton, with $2.00 per ton for hauling. Report adopted. Also submitted contract with Mr. W. J. Jewell for certain changes in County House. Also reported certain other repairs to County Property. Report adopted.

Account, John Murphy, wire fence boxes, $10.25, was referred to County Road Superintendent.

Account, Garry Proctor, auto damage claim, on County Road. Ordered filed.

A letter from C. F. Rattan, concerning auto claim of John Pettifer, near Bon Echo, $105.55, was ordered filed.

Place where accident happened was not on County Road.

Account, Dr. J. H. Oldham, re Jas. Babcock, accident on County machinery, was ordered filed.

The County Council was notified by Mr. Curl not to close a cattle pass on County Road near Yarker. Ordered filed.

A notice to Mr. Anderson, County Road Superintendent, that Kingsford bridge is unsafe, was ordered filed.

A notice from Nichol's Hospital, Peterboro', notifying the Council of admission of a patient from Township of Richmond, Miss Airhart, was ordered filed.

The resignation of Mr. W. W. Adams as a member of the Mothers' Allowance Board, was accepted.

Miss Abernethy, District Representative of the Mothers' Allowance Commission, appeared before the Council in reference to her work. The various cases under the local Board were considered.

Messrs. C. Kellar and W. C. T. Loyst were appointed members of the Board for next year.

A claim from Mr. Dennis O'Connor, for damages to fence and land by County Road gang, was ordered filed.

Mr. A. A. Connoly notified the Council that he would hold the County responsible for any repetition of the flood conditions which prevailed last spring. Ordered filed.

A communication and questionaire from the Highways Department, re motor vehicle act, was presented and laid on the table.

A motion to abandon a portion of County Road from Colebrooke to Moscow and add another road in its place and that a by-law be prepared in accordance therewith. Motion carried.

Saturday Morning.

On reading the minutes of the Council were tendered to the local Mothers' Allowance Board for their efficient services.

On motion a grant of $200.00 was made to the Secretary of the Mothers' Allowance Board to defray the expenses of the Board from October, 1922, to October, 1923.

The Council passed a resolution, asking the Provincial Government to assist the Township of Amherst Island in procuring a ferry boat to run from the Island to the new dock being built at Millhaven.

By-law covering the change of County Roads in Camden, was passed and ordered submitted to the Highways Department for approval.

The Warden was granted a special sum of $50.00 for expenses; also the usual grant of $25.00.

The Council extended to the esteemed Warden, Mr. Hannah, its thanks for his extreme courtesy while discharging his duties in the chair. The Council desired to regard its appreciation not only of his many sterling social qualities but also his far-sighted and accurate vision of the manifold needs of this County, and it is hoped he will continue to lend his services to the advancement of the interest of the County.

"Would Wake Up Screaming"

"The Least Sudden Noise or Loud Talking Would Startle Him."

"Up to the age of eight, my boy was a strong, healthy lad, full of life and energy. While playing leap frog one day with some boys of his own age, he fell while in a stooped position, a big lad jumped on his back and in falling my boy caught his chest in an iron railing and dislocated his hip. The pain was so great that he fainted and the other boys were so frightened they ran away. For hours he suffered terrible pain and when found and brought home he was very weak, with his thigh and hip swollen twice its size. The doctor set the bone but the pain and exposure left me in much fear for the poor boy and he became unconscious. A high fever set in and for weeks he lay between life and death raving for hours at a stretch. One day he opened his eyes and muttered, 'red Medicine,' but this was the only word he could utter he was so weak, but I knew the worst was over. He got stronger but for months was in a nervous condition. The least sudden noise or loud talking would startle him and he would begin trembling. He was quite lame and the swelling still remained. The doctor gave him a tonic and told me to rub the leg with olive oil. This reduced the swelling and took away the lameness, but the nervousness remained. The poor child would waken in the night screaming at the top of his voice. The doctor gave him several different tonics but they were no use. I found a circular about Carnol and it seemed so different from other tonics I had heard of, that I thought I would get a bottle. Three bottles were all that was needed to make my boy like his own self again. It is hard to convince my friends that the change in him now is entirely due to Carnol. Of course I still have to watch him and give him Carnol occasionally but I know that he will soon be as strong again as ever he was."

Mrs. P., Montreal.

Carnol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 2-22

TAMWORTH.

Word has been received from John A. and W. M. Wagar that they are comfortably settled in their new home in Oshawa, where W. M. and his sons, Leonard and Glen, have secured good positions.

Previous to their departure from their old home, near Tamworth, a number of their friends and neighbors met to wish them good luck and bid them good bye. The evening was spent in social intercourse, after which the following address was read, and presentation made in the form of a beautiful electric reading lamp to the family and a smoking set on a pedestal to Mr. J. A. Wagar; also a purse from Enterprise friends.

Dear Friends,—It is with much regret we learn of your intended removal from our midst, but as it is so, we take this opportunity of expressing our sentiments towards you and wish you good fortune in your new home. It will not be easy to fill the place left vacant in the community, but trust that our loss will be another's gain. When we consider the fact that you, Mr. Wagar, have been here nearly a life time and have seen this section of country change from forest to farms, and have taken your part in Church life as an unofficial, and in municipal life the highest office the electors of the Township can give, that of Reeve, it makes us cautious that we are indeed losing one of our best citizens. You can surely feel that you have done your duty and can have no regrets that you have left undone anything that might have been done to make this a better place in which to live.

To you, Mr. and Mrs. Wagar, we can truly say we have ever found in you friends in need and trust that the memories you take with you are as pleasant as ones you leave behind.

To you, second son Glen, we can say that you will be missed indeed in the church, school and social life peculiar to the young people.

We ask you to accept these small tokens of our esteem, and trust that in using them you will think kindly of those who have always been your friends and neighbors.

BELLE HAGGARTY,
M. A. DONOVAN.

The gentlemen responded in a suitable manner, and following, impromptu speeches by Rev. W. H. Clarke, Dr. O'Connor, Prof. Gardiner Wagar, G. H. Richardson and others, refreshments were served by the ladies, after which all dispersed to their homes.

Life Imprisonment.
Sentence of death passed upon Maurice Barrie, who, as far as can be ascertained, is the youngest murderer on record, at the Department of Justice, has been commuted to life imprisonment. Barrie was sentenced to hang on December 14th, by Mr. Justice Latchford, at the Belleville, Ont., assizes last summer for the murder of his employer, a farmer of Belleville vicinity. He was sixteen years old when the crime was committed.

SWEDISH INVENTOR HAS NEW OIL LIGHT.
Claims Whiter and Much Cheaper Light Than Electric or Gas.

Edison crudded us to enjoy the benefits of electric light, Count Welsbach's mantle made it possible to have the incandescent gas light, but it remained for a Swedish engineer named Johnson, now living in Montreal, to devise a lamp that would burn ordinary, everyday kerosene oil and produce a light said by the many scientists who have seen it to be whiter than electric. The lamp is as simple to operate as the old style oil lamp, burns without odor, smoke or noise and is proving a sensation where oil light is needed.

Mr. Johnson offers to send a lamp on a ten days' free trial, and will give one to the first user in each locality who will help introduce it. A letter addressed to A. S. JOHNSON, 240 Craig St. W., Montreal, will bring full particulars about this wonderful new lamp. He has an interesting agency offer, too. 49a

He is Coming! He is Coming! To Tamworth! Who?

Santa Claus! Santa Claus!

Welcome news at last! Arrangements have finally been made with Santa Claus Headquarters to have the old Gent himself come to our store on

Saturday, Dec. 16th

COME AND BRING THE KIDDIES!

Our stock of Toys and Dolls is now complete, and we are all ready for the arrival of the Little, Fat, Jovial, Ruddy-faced old Gent, and his bag of Toys and Dolls is Bigger than ever.

And he is going to make his headquarters at our store. Why shouldn't he? It is our stock of Christmas Goods the most complete in town! And we are busy every day unpacking more. We are ready for the Christmas trade; we are ready for Santa Claus. And he is coming! When? We are going to let you in on a little secret,—at 2 o'clock on the afternoon of Saturday, Dec. 16th. He will arrive in all the pomp and glory that usually accompanies him. He says he wants to see every boy and girl in, and in the vicinity of Tamworth. Why? So he will know who to visit and what to bring on that greatest of all nights, Christmas Eve.

Don't forget the Date! And bring the kiddies. Santa Claus is coming to the

GRETNA.

The people here are wishing for rain, as the wells and cisterns are very low, and, in some cases, dry. —The bazaar held by the Ladies' Aid last Thursday evening was a success, although the rough weather prevented many from attending. The articles for sale were both pretty and useful, but were not nearly all sold, owing to the small attendance. Rev. A. H. Foster, of Trinity Church, Napanee, was present, and gave a very interesting, as well as helpful, address, giving us many thoughts to carry home. All expressed themselves as being delighted with his talk.—Messrs. T. Walmsley and J. Sherman report a splendid run of fish on Monday.—Mr. and Mrs. C. Mellow and Mr. and Mrs. W. Hambly spent an evening last week with Mr. and Mrs. J. N. Hambly, Hay Bay.—Mr. and Mrs. E. Howell and baby visited his mother at Napanee on Sunday. Practices for our annual Christmas entertainment are going forward. Recitations, choruses and other music, as well as several dialogues, Reserve the date, Friday evening, Dec. 22nd. We are glad to report that Madge Keech, who has been seriously ill of scarlet fever, is improving. The others who are ill with it are also getting along nicely. Miss Macdonald, of Camden East, returned home on Tuesday, after spending a few days with Mrs. Jas. Sherman.—Master Earl Mikenbrack is unable to attend school this week, owing to illness. We hope for his speedy recovery.

Miss Mata Mellow spent Monday the guest of Mrs. J. Sherman.

MOSCOW.

Our kind neighbors, Mr. Henry Huffman and his son-in-law, Mrs. Hasbrough, leave for the sunny south in a few days. They will spend most of the winter in Florida, making a visit in New York when they return next spring.—We are pleased to report some improvement in the state of the health of Mr. Joseph Lawless, Our highly esteemed friend and neighbor, Mr. John B. Alkenbrack, passed away quite suddenly, and was laid to rest in Moscow cemetery on Wednesday afternoon, Rev. G. Nickle, Newburgh, officiating. Mr. and Mrs. E. Evans entertained the members of the W. M. S. Societies from Yarker, Colebrook and Moscow on Wednesday night. There were about seventy present. The Yarker and Colebrook members gave the programme and Moscow ladies served tea. The meeting was presided over by Mrs. (Rev.) J. W. Brown.

We are pleased to welcome home Mr. Gorman Patterson and Mr. Kenneth Huffman from the west. They are looking fine and speak well of the great west land. The scholars are making great preparations for the Sunday School Christmas Tree to be held in the school house on Thursday night, Dec. 21, to which the people are all invited.

Djerkios. Day Dream, Colgate's, Mavis, Paradis, Hudnuts and Cotys Toilet Waters, at Wallace's.

DORLAND.

Mr. Frank Coney fell and broke his arm, we are sorry to relate, also Mrs. S. Mack has blood-poison in her arm. Mr. and Mrs. Vandusen, Collins Bay, spent Sunday with their daughter, Mrs. W. Loucks.

Mr. Frank Vesterveit was called recently to the bedside of his mother, Mrs. Jessie Ruttan, who is ill.

Mr. Jessie Ruttan left for Prescott on Christmas with her daughter.

Born: To Mr. and Mrs. Christie Young, a daughter.—Mr. L. Moore and Mr. E. L. Burke, Napanee, spent Sunday last at Wm. Gallagher's.—Mr. Bruce Coney is spending a few days at Mr. F. Vesterveit's.

The ideal gift—"Waterman's Ideal Fountain Pens". For sale at Wallace's Drug Store.

ARDEN.

We are having fine weather at the time of writing.—The Misses Woodruff, of Sydenham, are visiting Mrs. Arthur Barber.—Miss Belle Post is visiting her sister in Wallaceburg. —Mr. and Mrs. D. D. Hartwick spent Sunday at Sam. Barker's.—There was a birthday party held at the home of Britton Woods on Monday evening, in honor of their daughter, Ada.—Mr. J. J. Post is confined to the house with the "flu". His many friends will be glad to see him out again.—Mrs. Ross Barr is improving, after suffering with blood-poison in her face.—Miss Jenny Johnson visited at Joseph Gendron's recently. —Mr. and Mrs. Cecil Barker spent Sunday at J. J. Post's.

Autostrop, Gillette, Durham, Duplex and Ever Ready Safety Razors,—real gifts for men. At Wallace's.

TRINITY CHURCH CONCERT

An excellent concert was held in the Armouries on Friday evening last, under the auspices of Trinity Methodist Church, the talent being from Belleville. The following programme was given:—

Chairman, M. P. Graham; address, Dr. Bruce Taylor, of Queen's University, Kingston; vocal solos, Mrs. Lentz, Mrs. Kever, soloist in John St. Church, Belleville; Miss Wrightmeyer, Organist in Holloway Church, Belleville; Entertainer, Miss Madeline Bird; vocal duet, Miss Wrightman and Miss Bird; male quartette, Messrs. Manuel, Craggerman, Bleasdale, all of Albert College, Belleville; vocal solo, Mr. George Pears; reading, Mr. Manuel; reading, Mr. Craggerman.

Rev. A. H. Foster ended the program by a few remarks in appreciation of the help given by the talent, also by the public in aiding their object. Moved by Mr. Foster, seconded by Mr. German, that a vote of thanks be given to those who took part and who gave their services in order to make the concert a success. During intervals in the program, also before and after the concert, Walters' Orchestra rendered several musical selections which were appreciated by everyone. The concert proved a splendid success and was attended by between six and seven hundred people. The following must be congratulated upon the evening's success: Messrs. W. E. Loyst, W. H. Dunbar, Frank Bogart and Mark Graham.

PRESBYTERY OF KINGSTON

The Presbytery of Kingston met on Tuesday in St. Andrew's Church, Napanee, with about twenty-five ministers and Elders met in regular settlement for the conduct of business. The morning session was taken up with routine work, and at one o'clock Presbytery adjourned to the Sunday School room, where the ladies of the congregation had prepared lunch for the visitors.

In the afternoon most of the time was taken up with the presentation of the General Interests Committee report, by Rev. A. J. Wilson; and the Home Mission Report by R. Simpson, of Stirling. The General Interests Committee showed that for the 1921 year the church in Presbytery contributed last year about fifteen thousand dollars. The allocation for 1922 was $17,500, and this along with the allocations to the various congregations was accepted.

The Foreign Mission report by Mr. Simpson was in the nature of a plea for more sympathetic interest in the foreign work and a more liberal financial support.

Two notices of motions were presented, which shows that there will be a lively discussion at the next meeting. The one was that the Presbytery overature the General Assembly to proceed to union, and the other was that the Presbytery overature the Assembly and delay union. The forces will be formed at the next meeting called for March in Kingston.

THE FARMERS' DAIRY CO. LTD., EXTENDING.

Just a little over three years ago the Farmers' Dairy Co., Ltd., of Toronto, commenced work on the building, purchasing in the town, in which they have been doing business since that time. The capacity of the plant, at first erected was 75,000 lbs. daily. This was very soon reached and the appreciation of the farmers of Napanee, the county, and the confidence and good will evidenced by the Farmers' Dairy Co., Ltd., to extend the plant to a capacity of 150,000 lbs. of milk daily.

It has been a source of great satisfaction to the people of the town and surrounding country, to witness the progress of this industry, and it has been particularly pleasing to the Company to receive the encouragement and support so heartily tendered.

In the three years of operation, the Farmers' Dairy Co. have paid for milk received by them, over $500,000.00, and it can be said with assurance, that their dealings with the producers of this district, have been generally most satisfactory.

The farmers are coming to realize their value of having industries in the Toronto market for a large part of their product, a considerable portion of the supply going directly to the City, for retail trade. Of course overhead and transportation charges do not allow of the same price being received by the producers of this district, as that in the immediate vicinity of the City. But it may be said that a more steady and sure market cannot be found, within reach of this district, and one more consistently remunerative as well. It is not generally known that the Farmers' Dairy Co. have nearly 100 small wagons delivering milk in the City of Toronto, and this business is increasing steadily.

The market price for skim milk powder has been rather low during the past season, but is showing considerable improvement, and a good market is looked for, in the coming season.

The Company have disposed of all their milk powder, though prices have declined perhaps, out of proportion to other dairy products, left having the Toronto market for their cream and considerable fresh milk, they have been enabled to pay comparatively well for the milk delivered to their plant; and it now appears that the powder market is improving, and the Company are hopeful that they may be able to generously repay their producers for their loyalty and hearty support in the coming season.

OKLAHOMA TO FEAST AT NOVEL INAUGURAL.

A call for enough provender to serve 200,000 persons two days has gone out over Oklahoma. Governor-elect J. C. Walton, Democrat, has invited the world at large to his inaugural party, Jan. 10th and 11th, at the State Fair grounds in Oklahoma City. He said he expects his guests to come by ox-trains, airplanes, motor cars, special railroad trains, riding broncos and the cushiens, afoot, horseback, and by all available other methods of travel. He will serve them barbecue, and give a square dance on the completely floored-in circle of a half-mile race track.

Dan. V. Lackey, prizefight manager, is Chairman of the Committee of 3000 members arranging the festivities.

Here is a tentative list of supplies for the barbecue, prepared by Lackey: Five hundred beef cattle, 200 hogs, 200 sheep, 5,000 chickens, 1,000 turkeys, 3,000 rabbits, 1,000 squirrels, 200 opossums, 500 ducks and geese, 10 buffalo, 10 bears, 10 deer, 10 antelope, 5 tons of coffee, 5 tons of salt, 5 tons of sugar, 1,000 pounds of pepper, 250 bushels of onions, 100,000 loaves of bread, 100,000 buns, 15 carloads of firewood, and 3 carloads of pine knots for kindling.

Here might be included also, as listed by Lackey, three thousand persons to serve the multitude, and five hundred crack expert butchers, slicers and barbecuers.

The new Governor is to take his office on a stand erected in the race track paddock. The two houses of the State Legislature will convene in joint session on the stand, and swear into office the Chief Justice of the Supreme Court, who will then administer the oath to the Chief Executive. This is to take place on Jan. 9th. The two-day celebration will follow.

The new Governor will ride a $5,000 saddle horse, seated on a $10,000 saddle, in a parade which will start the festivities. The horse has been promised, according to Lackey, by Col. Zach. Mulhall, of Mulhall, Okla., the diamond and ruby studded gold-mounted saddle by Col. George Miley of the 101 Ranch. Both are members of the Central Barbecue Committee, as is also Pawnee Bill, showman and rancher.

Word has gone to democratic headquarters in every county of the State, to enlist all the old-fashioned jiddlers who know how to play "Turkey in the Straw". Other old-timers who specialized in calling the figures for dances are being sought.

Adjutant General C. F. Barrett has notified that units of the Oklahoma National Guard will police the gathering. From National Guard and regular army sources in the State, according to Lackey, it is expected that enough tents can be gathered to shelter the visitors.

Among the specially-invited guests of the new Governor at the inaugural party will be about 1,000 Indians, representing all the tribes living in Oklahoma. Several tribes have promised to stage dances.

Governor-elect Walton was the nominee of the Democratic Party. In his State-wide campaign he promised that if he were chosen for the office of Chief Executive his inaugural ball would be no "pink tea party" for the "four hundred", but would be a real old-fashioned outdoor celebration for anyone who cared to be present. The barbecue will carry out the campaign promise.

Walton's barbecue, however, will not be the first inaugural celebration of its kind in Oklahoma. C. B. Haskell, the first Governor of the State, who, in 1907, took the oath of office three hours after the President had signed the Statehood Bill, gave such a celebration at Guthrie, the former State capital.—New York Sunday Times, Dec. 10th, 1922.

ODESSA.

The concert given by the Methodist Churches of Odessa and Wilton last Friday night in the Town Hall, was a wonderful success, when Miss Pearl Newland, of Toronto, delighted the large audience with her elocution and humorous recitations. The hall was filled to capacity. The various numbers given by the Wilton talent, including quartettes, instrumental trios and vocal selections, also the vocal selections by Messrs. Turnham and Hayman, members of the Odessa Choir, were repeatedly applauded. Their esteemed Pastor, Rev. S. F. Dixon, made the chairman. Miss Newton was entertained by Mrs. (Dr.) J. E. Mabee, while here.—The losses by fire, when B. J. Oswald's building and D. O. Frink's stock of general merchandise were completely burned on Nov. 23rd, have been fully paid by the companies in less than two weeks.—B. J. Oswald and D. O. Frink, also Mrs. Burley's store and dwelling, which were damaged by fire, were in the Merchants' Fire Co., Toronto. Mr. Frink also had an insurance with the Mount Royal, Montreal, and his auto truck was with the Dominion of Canada Guarantee and Accident Co. Mr. Frink's stock was delivered and been paid through their local agent, R. J. Smith.—Mr. and Mrs. Bert Nickle, Newburgh, called on friends last Thursday.—Mr. and Mrs. Ross Schermerhorn, Toronto, are guests of the former's parents, Mr. and Mrs. M. F. Wagar for the week end. —Miss Mellver visited her friend, Miss Leyla Hudson, at Centreville, last Sunday.—The pupils of the junior room of our Public School have succeeded $5.60 to the needy children of Northern Ontario, who suffered because of fire. They are now preparing for a concert on the afternoon of the last day of school.—The Methodist Sunday School is holding its annual entertainment and Xmas Tree, on Friday, Dec. 22nd.—Mrs. Blair (Husband has gone to Toronto for the winter).—Maitland Jackson is going to Petersboro' this week to visit the Pork Packing establishment.

ANDERSON.

A delightful Cottage Concert was held on Tuesday evening last at the home of Mr. and Mrs. Archie Parks, the proceeds of which were to go towards the purchase of new lamps for the church. Although the night was very stormy a large crowd gathered and a most enjoyable evening was spent. The musical numbers were as follows: Chorus, Sweet Hour of Prayer, Seymour and Miss P. Truscott; duets by Mrs. G. Exley and Miss P. Truscott, also by Mr. and Mrs. Seymour; solo by Mrs. Seymour and Miss Carew; recitations. Interesting games were introduced by Miss Parks, in which the youngest prizes were won by Misses R. Parks and Allan Baldwin. A dainty lunch was served by Mrs. Parks and a very memorable evening came to an end in the usual time.

It Has to Pass Our Baker First

EVERY "milling" of Quaker Flour must satisfy our baker before it leaves the mills.

The wheat is analyzed by our chemists for protein, gluten and ash; the perfect grains are selected and cleaned. The product is tested at every stage of milling. A perfect flour is the result.

But the *supreme* test takes place in our own bakery. Every day's "milling" of Quaker Flour must receive the O. K. of our expert baker. It must produce bread perfection in size, flavour, colour and texture, before it can leave the mill. Nothing is left to chance in producing Quaker. You will make far better bread and cake with

FLORIDA.

Here I am, Mr. Templeton, away down South in Dixie, 1723 miles South of Napanee, and "Cube", as a bird would fly, about 125 miles West across the Gulf of Mexico, and New Orleans to the head of the Gulf at right hand,—We are about in the centre of the state every way.

I have been run around through the state by auto to view the groves of oranges and grape fruit, which abound in every direction laden with the large golden fruit, and picking and packing same is in full swing all over, and will last till May. The trees everywhere are as green as ours in June, and remain so all the year round, growing wood and fruit perpetually. The ground is cultivated and fertilized annually, and produces the finest fruit grown in the world. We nearly founder ourselves eating them all the time, which are ripe, rich and fresh from the tree by just stepping out of the door. I would like for the people of Lennox Co. to take a fly here in an air plane, and view the scenery of fruit and flowers which abound everywhere, with beautiful houses, and the finest asphalt and state roads all over the state, as good as Dundas street, Napanee. Well, some day they may, as migration is a principal yet to be stirred, when we will all pass to and fro just like the birds. When the flying machine is perfected, and the barrier bars of customs are thrown into the sea, then will the people be free just like the birds.

I passed through the states of New York, New Jersey, Pennsylvania, Maryland, District of Columbia, Virginia, North Carolina, South Carolina and into Florida, viewing the old historical cities of New York, Philadelphia, Baltimore, Washington, Richmond, Havanah, Charleston, Savanah, and Jacksonville, with hundreds of other towns along the Atlantic Coast. This state will be the richest state of the Union, and owned by the rich. It is to be seen to understand it all as it passeth the understanding to describe it. The following poem was composed by Mrs. Blanche Conklin, of this city, "Winter Haven", to her sister in Ohio.

The Sunny South.

Come to the South, the Sunny South,
Where the orange and grape fruit grow;
Come to the South away from the north,
Away from the ice and snow.
Where the flowers grow the whole year round,
Where the sun shines every day;
Where the birds sing gaily in the trees
In December as well as May.
The lakes are deep and pure and clear,
Most wondrous to behold:
The fruit hangs glistening on the trees,
Like many balls of gold.
The moss among the old tall pines,
Hangs thickly overhead;
The poinsettia grows supreme,
In glorious cloaks of red.
We are greeted by the stately palm
At almost every turn;
Then to our pleased surprise,
We are treading on the fern.
We view the bay so smooth and blue
as far as eyes can see;
Then a flock of Pelicans come flying merrily.
Now, old time friends, this little poem
I have written all for you.
I want you to come to the South and live,
Where the skies are always blue;
I want you to come to the Land of flowers,
Where there is no ice or snow.
Away from the biting frost and sleet,
From the cold north winds that blow;
So come to the South, the sunny South
Where the orange and grape fruit grow.

The fell-wing is a clipping from the Tampa Morning Tribune of Dec. 1st, which gives the minds of many eminent men of the value of this state as not others similarly situated as tropical countries, which is no doubt correct in every particular.

Florida Most Desirable Place, Nine Out of Ten Will Admit.

It is the opinion of nine persons out of ten who have spent the seasons, both winter and summer, in both these states, that Florida is the most desirable state of the two, because of its more equitable climate.

Greece, Italy, Spain, and Portugal, Central America and Lower California are five great peninsulas that compare favorably with the Florida peninsula and each one has a climate peculiar to itself, but none more favorable as to latitude, topography and slope than Florida.

Florida has about 1,500 miles of coast line and is only 115 to 125 miles in width. With the ocean on the one side and the gulf on the opposite side, cool breezes constantly waft across the peninsula with the result that the climate is genial and equable through out the year. Unlike California, the state of Florida has no high mountains from which cold blasts sweep down, chilling the air and causing a sudden drop in temperature of from twenty to forty degrees in a few hours after the sun goes down. The secret of Florida's wonderful climate lies in the fact that the gulf stream and ocean currents keep the air stirred, thus checking sudden change of temperature.

In summer it is sometimes as high as 90 degrees in the shade, but the effect of the heat is almost imperceptible, the rains performing the cooling part. Nights are delightfully cool and refreshing and one may sleep with or without covering. Toward early morn an extra sheet would be quite comfortable. In California the wet or rainy season occurs in the winter, while in Florida it does not begin until summer.

As the Bingville poet once said :

"Man's is animal to scold; ;
When it's hot he wants it cold;
When it's cold he wants it hot,
Ne'er contented with his lot."

There are days when it is chilly and again there are days when it is hot, but because of their short duration, the difference is hardly worth while complaining of. In fact, the change is always welcome. Only by comparison of California and Florida temperature figures can we appreciate the evenness of the Florida temperature through the year.

The superiority of Florida's climate is a generally accepted fact, but a few of the following testimonials than which no stronger presentation of the facts can be submitted are so convincing that counter argument is useless.

R. Weber, director California experiment station says : "In general the Florida winters are warmer than those of California and the summers are apparently cooler than in California."

"Florida has certain advantages over California, the West Indies, Honolulu, Egypt, India, Ceylon, Java and several so-called winter resorts, each as Rivera and Italy. Southern California is delightful, but it has more cold and rainy weather than I have found in Florida."—George Ade, the Indiana dramatist.

"This is undoubtedly the best climate in the world. You people have California beat on climate."—Thomas W. Jackson, author of "On a Slow Train Through Arkansas."

"Florida's climate is really marvelous and I have become a confined Florida enthusiast. California has a wonderful climate, but it is not a consistent climate, and Florida's climate I have found consistent." — Albert Payson Terhune, noted author.

E. Blodgett, now living in Riverside, California, formerly of Orlando, Fla., says Florida has a far superior climate to that of California.

"The best climate I ever saw, with no fogs like California, no history of earthquakes or bad and destructive storms."—Charles Becker, of Florida City, Florida, who lived fifteen years in and near Los Angeles, California.

If you labor under the impression that the Florida summer climate is unhealthful and productive of sunstroke and heat prostrations and the winter climate is cold and changeable, the sick and death rates do not justify the assertion. In fact, the year is below that of any other state in Uncle Sam's domains.

In Canada and the United States, rats and mice destroy annually enough to pay off the whole war debt. The best weapon to fight these pests is Rikoy. Rat Paste, 25c. a large tube, at Wallace's.

An excellent protection against worms can be got in Miller's Worm Powders. They render the stomach and intestines untenable to them. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to restore the strength of the child that has been undermined by the draughts that the worms have made upon it, and that their operation is altogether healthgiving.

QUEER FEELINGS AT MIDDLE AGE

Women Should Know How Lydia E. Pinkham's Vegetable Compound Helps at This Trying Period

Sheboygan, Wisconsin.—"I was run down, tired and nervous. I could not even do my own housework, could not sleep at night and all kinds of queer thoughts would come to me. Finally I gave up going to the doctor and a friend told me of Lydia E. Pinkham's Vegetable Compound. After the first bottle I could sleep better and I have kept on improving ever since. I have taken seven bottles now and am so happy that I am all over these bad feelings."—Mrs. R. Lassen, 1630 N. 3rd St., Sheboygan, Wisconsin.

For the woman entering middle age Lydia E. Pinkham's Vegetable Compound can be of much benefit. During this time of life certain changes take place which sometimes develop into serious trouble.

Melancholia, nervousness, irritability, headache and dizziness are some of the symptoms. Lydia E. Pinkham's Vegetable Compound is a natural restorative, especially adapted to assist nature in carrying you safely past this time. Why not give it a fair trial?

A Rare Gift to any woman

DOWN through the years the lustrous surface and matchless charm of Holmes & Edwards serves as a pleasing reminder to the happy woman who receives it.

Holmes & Edwards silverplate is a rare compliment to the good taste of those cultured women who love grace and beauty. But behind this is a more practical charm—the charm of retaining that fascinating lustre.

For Holmes & Edwards is protected at those points which would otherwise become marred by everyday use—by two exclusive Holmes & Edwards processes.

Your nearest jeweller will explain these processes to you. He will show you the dignified Jamestown pattern and the new artistic pattern, The Hostess. Ask him to show you, also, his display of Holmes & Edwards table appointments, such as flower baskets, casseroles, butter dishes, pie plates, bread and roll trays—all captivating gifts for Christmas. Look for the Holmes & Edwards trademark. Ask for the Holmes & Edwards brand.

IN MEMORIAM.

Emma S. Bogart.

In the Autumn of the year, she came to me,
When shadows lay upon the summer flowers;
The sky was blue as the distant sea—
It was not long ago—those happy hours.

How rich and full! How prodigal the yield
Of kindliness, like summer roses tender!
And selfless love that found its widest field,
In quiet deeds, pure as the lily's splendor.

Her heart was light with joy of hopes, that keep
Alive the soul's desired melody—
That only fades in that vast Silent Sleep
To wake at Heaven's dawn, within Eternity.

—Charlotte Carson—Talcott.

"Don't Worry About Me" Tom's Assuring Message

On a little farm away up north Tom lived with his parents and one brother. His father, well up in years, found himself unable to continue the hard work of farming, so Tom took up the burden. The income was not large, and the old farmer up with a lumber camp working nearby—sawing logs, stripping bark and driving the teams. Altogether there two jobs, hard and cumbersome, kept his day so well filled that he had time for little more than sleep. Nature resenting all this heavy burden—consumption—claimed another victim.

After trying various ways to overcome his physical weakness, he went to the Kingston Hospital. His parents are anxious to hear from him, the other son to see him after all they are old and feeble and fourteen-but to a hazardous undertaking for them. Tom's own troubles are never revealed to him that he forgets others. He asks for those about him. lives for little bits of news about his home, and never fails to send this message back, "Don't worry about me. The people here sure do treat you white."

A wonderful work is being done by the National Sanitarium Association. The death rate from tuberculosis in Ontario has been reduced by more than one-half during the last twenty years. It needs your help to make its efforts still more effective.

Contributions may be sent to Hon. W. A. Charlton, 223 College Street, Toronto.

Toy-Land Is Rich In Variety This Season

THE GREATEST "GIFT" YOU CAN GIVE THE AVERAGE GIRL IS ONE OF OUR BEAUTIFUL SLEEPING DOLLS.

Dolls strike the right note when it comes to solving the problem of "What to Give" the average girl of twelve years and under. It is a gift that stays with them in many instances a life-time. Many a woman of to-day can trace her desire for "making things" back to her childhood days, when nothing was quite so much fun as "cutting-out" and "Sewing-up" Dolls' clothes. This season our stock represents some wonderfully good values:—

Beautiful Sleeping Dolls, with very real hair, with lovely dresses and hats to match, can be bought as low as 50c. each.
Other Dolls that are larger are priced 75c., $1.00 and $1.25.
At 25c. each comes a dandy little doll that measures just eleven inches tall. It has a lovely ruddy complexion. Dressed with a lace-trimmed cambric dress.

THESE TOO ARE SPLENDID VALUES.

Our Books are well assorted in a wide range of popular Xmas numbers. Priced 5c., 10c., 15c., 25c., 50c., 75c., $1.00, $1.25 and $2.00.

American Flyer and other good trains, $1.50, $2.50 and $4.95.

Panama Pile Driver, a good workable toy for a boy. Priced $1.95 each.

Magic Lanterns, that throw pictures on the wall, $1.50 each.

"Fleetwing" is the name of a good strong sleigh. Special at $2.25.

Girls' Play Dishes in setts of China, Aluminum, and Agate. Large and small setts. Priced 50c., 95c., $1.75, $2.00 per sett.

Jack-in-Box is a welcome come-back to the toy trade. Large, big fellow for 15c.

Beautiful Doll Carriages from $14.50 down to $1.50.

FIRST BIG CLEARANCE OF WINTER HATS STARTS SATURDAY. ALL OUR EXCLUSIVE AND PATTERN MODELS ARE REDUCED TO HALF-PRICE.

Usually this event does not come until after the New Year. Yet this season, right in face of the big holiday demand for fancy dress hats, comes this startling reduction. Embraced and featured in this collection are models featuring a world of variety in line and trimming. Each model is distinctively original in conception; some come to us from the best Canadian makers; others were produced in our own work-rooms. Black and other dark colorings predominate, while all are obtainable at Half-Price. Choose a new Hat for your holiday activities.

15 WOOL DRESSES ON SALE SATURDAY, DEC. 16th VERY SPECIALLY PRICED AT $9.98 EACH.

"Worth More" unquestionably so, but on Saturday we are giving you your choice of this extra choice lot of newly created Dresses. In the assortment are many attractively styled Dresses made from materials as Botany Wool Serge, Wool Tricotine, Homespun and Flannel. These styles usually follow the straight line vogue and are trimmed with braid, beading and embroidery. Navy is the outstanding color, while Black, Blue and Green Checked Homespun, Sand, Copen and Henna are obtainable. Sizes from 16 Misses to 38 Women's. These are excellent Dresses for girls' school or office wear. Why not "one" of these for "Her" gift?

Mr. Editor,—

I congratulate you most heartily on the recovery of the use of your seriously disabled hand. While it is better in some instances to enter into life with only one hand, I think in newspaper work, two are much better.

May I ask you to kindly reserve space in your Christmas Number for me to express the superlative pleasure given by the complimentary remarks spontaneously and gratuitously contributed by a most appreciative clientele.

Anticipating an affirmative,

Cordially,

OBITUARY.

Mrs. Michael Spratt.

The death of Mrs. Michael Spratt, of Sheffield Township, on Monday, December 4th, removed to her heavenly reward one who will be affectionately remembered by all who knew her. Of a quiet, home-loving disposition, she was a kind neighbour and a sympathetic friend. Suffering from a serious affliction, she realized about a week before her death that the end was approaching. The calm faith in God which she had cultivated by prayer and a sincere love of the Bible gave her in the presence of death a restful assurance of the better life beyond. The funeral service was held on Wednesday morning, in St. Andrew's Church, Tamworth, by Rev. W. H. Clarke, and her body placed in the vault. She was 63 years of age. She is survived by her sorrowing husband and two sons, Ashley and George, and one daughter, Mrs. Stanley Marlin, of Tamworth.

Chiropractic is a science that is as high minded as the heavens. It properly adjusts the subluxations of the spine so that the vital force may flow through the nerves to the nerve cells.

WEDDING BELLS.

SMITH—FERGUSON.

On Monday noon, Dec. 11th, at the Methodist Parsonage, one of Morven's most highly respected and popular young ladies, in the person of Miss Lauretta Smith, daughter of Mrs. E. M. Smith, was united to Mr. Samuel Chalmer Ferguson, of Winnipeg, Man., son of Mr. and Mrs. Archibald Ferguson, Scotland. The ceremony was performed in the presence of immediate relatives. Rev. W. R. Merrick officiated. The bride wore a beautiful dress of copper colored Canton crepe silk, with large black picture hat. After congratulations the bride and groom left for a trip to Toronto by the 2.22 train from Napanee. The bride's travelling dress and coat was beautiful and becoming. The heartiest good wishes and congratulations of their many friends go with them. The bride will be greatly missed in our community, having been such an active worker in various departments of our church activities. She proved a most faithful member of our church. She was organist for the Young People's Society, teacher in the Sunday School, and a member of the Choir. Her life and influence has been a real contribution to our church and community, and while we regret very much her loss to us, yet we are happy to think her life and influence in the new community will be such as to endear her to her new friends in the West.

COOKE—HAYMEN.

An interesting event took place at the Methodist Parsonage, Napanee, on Saturday, Dec. 9th, when the marriage of Addie Myrtle Cooke, daughter of Mrs. Annie Cooke, Napanee, and Lawrence Albert Haymen, son of Mr. and Mrs. Henry Haymen, of Kingston, was solemnized by Rev. A. J. Terrill. The bride looked charming in a gown of Princess Mary blue canton crepe trimmed with silver and taupe, with taupe hat and veil and suede shoes to match. The young couple were attended by Mr. and Mrs. Earl Cooke, of Napanee. Mrs. Cooke looked very nice in a taupe broadcloth suit with hat to match and suede shoes with rhinestone buckles. After the ceremony they motored to the home of the bride's mother, where a sumptuous wedding supper awaited them, only the immediate relatives being present. The bride and groom left later for Montreal and points East, and on their return will reside in Kingston. All join in wishing them bon voyage through life.

ADOLPHUSTOWN.

On Thursday, Dec. 7th, a life-long resident of Adolphustown, in the person of Mrs. Peter Chalmers, died at the family residence here. The late Mrs. Chalmers was born in Stirling, Scotland, and came to this country in her early youth; and her life in this community was an illustration of those virtues that mark the lives of the good, the true, and the beautiful. She leaves to mourn the loss of a devoted mother, Mrs. Edward Hogoboom Conway; the Misses Agnes and Jessie, and Mr. Thomas Chalmers, at home. The funeral, which was private, took place last Saturday morning, and was largely attended by relatives. Interment was made in S. Alban's cemetery.

WHITE LIGHT FROM OIL LAMP NOW.

Government Tests Prove New Light Beat Electric-Sensational Invention.

A new light has recently been invented which burns common kerosene oil and produces a soft, white light said to be even better than electric or gas. Tests by the Government and leading Universities prove this new light is superior to any ordinary oil lamps. It burns without odor, smoke or noise, is simple and economical, required no pumping up and has been approved by the Underwriters for insurance.

The inventor, N. T. Johnson, 246 Craig St., W., Montreal, is offering to send one of these new lamps on ten days' free trial, or even give one to the first user in each locality who will help him introduce it. Write him today for particulars. Also ask him to explain his agency proposition. 50a

Rupture is Dangerous.

Why Always Be Compelled To Wear a Truss?

A scientific remedy can now be obtained that softens the calloused edges of the broken lining and puts it in a healthy growing condition, thereby allowing the opening to close naturally, after which the need of any further Truss or appliance is done away with. Why live in despair? Anyone ruptured, man, woman or child, should use Thompson's Renowned Rupture Remedy, which is put up in bottles containing a full three-months' treatment, which is sufficient in most cases. Wonderful results will be obtained from its use.

In fact it is guaranteed to give relief when directions are accurately followed, and if satisfactory results are not obtained, the purchase price will be refunded. This remedy will be mailed to any address in Canada upon receipt of price, which is only $5.00. Send Money Order or marked cheque; do not send cash in letter unless registered.

Walker's Garage
NEWBURGH

This is the season of the year when many battery owners are asking each other what they are going to do with their batteries during the winter. Those who have entrusted the care of their batteries with us in former winters this question is of no great concern, for they are now turning them in, knowing that we give service here on all makes of batteries without discrimination, in the interest of longer battery life and greatest possible battery reliability.

All work is carefully supervised by the proprietor and only the very best materials are used.

If you are not a regular, give us a trial. Should we fall short of 100 per cent we will feel a lot worse about it than you will.

Our prices you will find in accordance with first-class service. Wet storage, $2 and for season. Dry storage, $1.00 for season.

ODESSA ANNIVERSARY.

By luminous expositions of Scripture and forceful, practical sermons, the Rev. Dr. S. W. Falls, of Toronto, gripped the hearts of the people at Odessa Methodist Church Anniversary, on the 3rd inst. Large congregations attended and suitable music was rendered by the Choir.

The Town Hall was filled on Friday, 8th inst., for the concert under the auspices of Odessa and Wilton Circuit. Miss Pearl Newton, Toronto, proved to be an artist of great ability and an exceptionally good musical program of music was given by Wilton Male Quartette, Messrs. R. Assselstine, J. E. Miller, E. Babcock and S. Storms, and by the Misses Gladys Wallace, Dorothy Neilson and Marjorie Storms, Mr. Sim Storms and Marjorie, of Wilton, and Messrs. Turnham and Hayman, of Odessa.

On Dec. 10th the largest congregations of recent months were in attendance when the Pastor preached to the Sunday School in the morning and gave the first of monthly evening addresses—not sermons—Tennyson's "Crossing thes Bar", being the subject. Choir has been re-organized, by the addition of new members, including two cornetters.

REIDVILLE.

(For last week.)

The anniversary services held at Knox Church, Sunday, Dec. 3rd, were a great success. Rev. C. J. Wilson, of Roblin, took the morning service, and Rev. A. J. Wilson, Napanee, the evening service. There were large congregations. On Monday evening the anniversary celebration was continued in the form of a teameeting and entertainment, to which a large crowd gathered, filling the church. The eats and programme were of the best quality. Addresses were given by Revds. A. J. Wilson, Mr. Peston, and Mr. Leigh. Rev. Mr. Clarke acted as chairman.—Mr. Willie Haynes has sold his farm to Mr. A. Snider. We will be sorry to lose Mr. and Mrs. Haynes from our midst.—Mrs. Elliott of Arthur, is spending a few weeks here with her daughter, Mrs. F. Reid.—Mr. and Mrs. J. W. Reid spent Friday with Mr. and Mrs. David Cameron, Shanty Bay.—Mrs. A. Fingland spent a day recently in Deseronto.—Miss M. Pile is preparing her pupils for a concert to be given on Dec. 21st.—Mrs. R. J. Wilson has treated herself to a handsome new range.—Mrs. Mary Ann Kennedy, of Chatham, is spending some time with her parents, Mr. and Mrs. W. Hyland.—Miss Luella Hyland, of Camden East, has been renewing old acquaintances in this vicinity.—Donald Herman and Edmund Wilson spent the week end at their homes here.—A large number from here attended the concert in Norwood at the Campbell House, on Thursday, Nov. 30th, given by Miss Watson, Mr. Johnson Hannah. All report an excellent time.—Mr. Harry Ellis, of Belleville, has been spending a couple of weeks at the home of Mr. J. W. Reid.—Mr. and Mrs. Joe Tait and Mr. and Mrs. Reid McConnell, of Selby, spent Sunday with Mr. and Mrs. A. Fingland, and attended the anniversary services.

PLEASANT VALLEY.

Three Years "Over There" Two With "The Mounties"

Sitting astride a "Mountie's" horse he was as fine a specimen of human breed as one could meet. Six feet tall, trained, muscular and well built, he was an athlete of no mean ability. Three years in the war had scarcely made "a man out of him," but it took a skilful eye to know this. The war had far-reaching and terrible effects. One day he played recklessly and worked hard, then stood for a dip in the lake. Only with the help of many warm friends can this great work be carried on. Money is urgently needed. Contributions may be sent to Hon. W. A. Charlton, 222 College Street, Toronto.

THE indomitable folk of Northern Ontario deserve your practical sympathy. Remember, eighteen hundred families have been burned out—and must start all over again. These wonderfully rich farms, mines and aggressive young towns will re-build and come back to their own—but it takes time. And in the meantime they must live, they must have temporary shelter and there's nobody to give it to them if we don't.

Suggestions for contributions from Clubs, Factories, Organizations, etc.

2. $350.00 will provide a Shelter Shack for Family.
3. $200.00 will provide Food and Supplies for a Family to May 1st. 1923.
4. $100.00 will provide a Wagon for Settler.
5. $75.00 will provide a Set of Harness (double).
6. $50.00 will provide a Set of Bobs or Sleigh for a Farmer.
7. $25.00 will provide a Sewing Machine for a Home.
8. $20.00 will provide Kitchen Furniture for a Family.
9. $15.00 will provide Cooking Utensils for a Family.
10. $9.00 will feed a Family for a week.
11. $5.00 will provide Needles, Thread, Buttons, Scissors or Yarn and Knitting Needles, etc. to help outfit a Home and Family.
12. $1.00 will feed and supply a child for a week.

Make Christmas come back again

Picture a Christmas in a nearly bare shack in a burned out town in a Northern winter. Hundreds of children up there remember. Make a money contribution now and show your northern fellow citizens that the Christmas spirit lives and has a real meaning in Ontario. All they ask is bare necessities—they deserve at least that much.

Now it is up to you—every public-spirited citizen and charitable organization. Spare one dollar, five dollars, one hundred dollars or whatever you can. Spare something from your Christmas cheer. Make Christmas up there a little less than a grim tragedy. Remember, not comforts, but bare necessities in the grip of a northern winter, is all that they ask. Send today? Make cheques payable to—

Prof. Cook, who has been visiting friends at Watertown, N.Y., has returned home.—Miss Blechlock was called to her home in Gloucester last week, owing to the sudden death of her father.—Mrs. (Dr.) Northcott has returned home, after spending several weeks with friends in New Jersey.—Mrs. Wm. Calver attended the funeral of his mother-in-law, the late Mrs. Amey, of Forth Road, Mrs. Calver was at the bedside of another daughter, her illness has returned home.—Mr. Edward Wemp, who has been seriously ill, is improving.—Harry Mott, of Napanee, has taken over the store conducted by Edward Wemp. Mr. Smith has moved his shoe repairing shop into the same building.—Cecil Wartman, of Toronto, is visiting his mother, Mrs. John Wartman.—Born, to Mr. and Mrs. Ernest Harnden, a daughter.

OBITUARY.

Mrs. Clara Caughlin.

The many friends of Mrs. Clara Caughlin were saddened to hear of her sudden death on Saturday, Nov. 18th, 1922, at the home of her daughter, Mrs. Hawley Bradshaw, where she had planned to spend the winter.

Mrs. Caughlin had only two short weeks before returned from a three months visit with her daughters in New York State, and was apparently in her usual health. On November 10th she suffered a stroke of paralysis, from which she never fully recovered, although at times she knew and could talk in a whisper to those about her. All that loving hearts and willing hands could do was done, but she remained in this condition until November 18th, when the Saviour called her to her reward.

Mrs. Caughlin was born August 8th, 1840, daughter of Daniel and Liza Masters, and with the exception of a few years spent in Tweed, her entire life had been spent in the vicinity of Selby and West Plain. Loved and respected by all who knew her for her kindly deeds and thoughtfulness for others, many will miss her.

Funeral services were largely attended, and the remains were laid to rest by the side of her companion for over fifty years, who passed away about a year ago. Three sons and three daughters are left to mourn the loss of a loving mother. Also a brother and sister and several grandchildren.

The Last Asthma Attack may really be the last one if prompt measures are taken. Dr. J. D. Kellogg's Asthma Remedy will safe-guard you. It will penetrate to the smallest bronchial passage and bring about a healthy condition. It always relieves and its continued use often has a permanent effect. Why not get this long-famous remedy to-day and commence its use? Inhaled as smoke or vapor it is equally effective.

ARDEN

(For last week).

Mr. J. J. Post has returned home after spending a week with his son at Smith's Falls.—A very sad accident occurred on Sunday last, when Mrs. Clarke fell and broke her leg just above the ankle. She has the sympathy of a host of friends.—Mrs. Clarke is seventy-seven years of age and went to call on Mrs. Ross Burr who is sick, when she fell.—Miss Vandewater, of Mount Vale, spent Sunday with Irene Gendron.—Mrs. Stocker is on the sick list. Her many friends will be glad to see her out again.—Mr. Eli Hartwick, C. P. R. brakeman, is spending a few days at his home here.—The young people have started practising for the Xmas entertainment, which will be held on Saturday evening, Dec. 23rd.—J. E. Barker has returned from Toronto.—Sunday visitors were, Mr. and Mrs. Albert Marshall and family, at D. D. Hartwick's; Mr. and Mrs. Cecil Barker at J. J. Post's, and Miss Hazel Scott at Everett Scott's.

Here's a gift that would please any housewife—a 5 or 6 lb. package of "Daisy's Good Tea". For sale at Wallace's Drug Store.

"I Was a Fright!"

"Nothing I Could Take Made Me Any Fatter."

"Up to the time I was seventeen years old, I believe that I was the most miserable and unhappy girl that ever lived. I honestly was a sight. I was the most ungainly, scrawny creature you ever saw. I was thin and scrawny—straight as a stick down. My height was five feet nine inches and I weighed exactly ninety-six and three quarter pounds. No wonder what kind of clothes I put on I looked like a fright. I was a clumsy and awkward. I used to stand before the glass and study my features. I found I had a good pair of eyes and a good mouth, but my cheeks were sunken and my features. How I rarely even glanced at me. When they did, they merely gave me a casual, amused or pitying look.—an expression which I am sure meant, 'why is a being like that allowed at large?' I used to lie awake at night for hours at a time wondering why there were so many beautiful girls in the world and I was so hideous. I met a friend of mine one day, Elsie W. and I hardly knew her. While she had never been as thin as I was, a year or more ago she ran me a close second. But when I met her she had filled on flesh and had developed into a fine handsome girl with one of the prettiest figures I had ever seen and I asked her what had caused the big change. She said Cornol. She told me she had been taking it regularly for the last three months and that from the first week of taking it she had begun to put on flesh. I was so encouraged by what she told me that I couldn't get to the druggist fast enough. I bought a bottle and since then I have been taking it regularly. It has made the greatest change in me you ever saw. I now weigh 155 pounds and all my friends tell me what a wonderful figure I have and I know that I am also!"

Cornol is sold by your druggist, and if you can conscientiously say, after you have tried it, that it hasn't done you any good, return the empty bottle to him and he will refund your money. 5-23

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Eclectric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. A trial will convince any who doubt its power.

STELLA.

The snow which fell a few days ago makes things look like winter.—Everyone wears a smile as a boat-load of coal arrived last week, but it was as quickly sold.—We are now prepared for winter.—The Str. Brockville made her last trip of the season last week, and we are now without a boat service.—We hope for one to run the Wolfe Islander before Christmas.—A sad gloom was cast over this vicinity last week, when word was received that Hiram Willard, wheelsman on the Mapleburst, had been drowned on Lake Superior. His body was brought here on Friday on the C. S. Lumber, "Wheeler". The funeral took place from his father's residence, thence to the church, and the remains placed in Glenwood Vault. Deceased, who was only twenty-three years of age, is survived by his father and mother, five sisters, Mrs. J. Ewes, Stella; Jessie, Brockville; Annie, Dorothy and Jennie, at home, and five brothers, Capt. Chas. and John, Kingston; Claude, David and Munro, at home.—Everyone busy preparing for Christmas. Don't forget the school concert by No. 1, 2, 3, 4 and 5, on Thursday, Dec. 21st. A good programme, followed by a Christmas Tree.—Bert. Mc. Dixon is still on the sick list.—Miss N. Burleigh, Mrs. J. Tukwell and Mr. E. Fleming are able to be out again.—Miss Rose McMullen, who is in Kingston Hospital, is improving.—A large number from here attended the Dominion champion-ship game of Rugby in Kingston. They were very entertainable in their praise of Queen's.—Mr. Thomas Carnane has arrived home from the West.—Mr. and Mrs. Alfred Fleming, of Moose Jaw, Sask., have arrived to spend the winter with her parents, Mr. and Mrs. S. K. Tugwell.

Testing Farmers' Seeds For Purity and Vitality.

The free government service provided through the Seed Branch, Department of Agriculture's Laboratory at Ottawa (117 Victoria St.) leaves no excuse for a farmer to plead ignorance next spring that his did not know he was sowing certain kinds of weed seeds or seed of low vitality which might give him only a half stand of crop or less.

From now until February 1st he may have up to ten samples tested free, along with a free mail delivery of the seed. When the trade becomes active in seeds and the testing staff is very busy as it is during the months of February, March and April, it will cost every one 50c. per sample for a test. It seems reasonable to suppose that most farmers could have their seeds prepared for market before the end of January.

There are many farmers who prefer to sow Sweet Clover by itself, rather than buy it mixed with Red and Alsike Clover Seeds. How is he to know if the seed is in a sample or not except it be analysed ?

Such an examination should be of great value to growers of seed who wish to make the most out of their seed either sold for local use or for export.

The main check in the spread of noxious weed life is given when pure seed is sown of well cultivated land.

You may be preparing some seed exhibits for the Ottawa Winter Fair, why not avail yourself of a quick service that is awaiting to serve your best interests ?

A Treat at Odessa.

On Friday evening last Miss Pearl Newton, of Toronto, made her first appearance in Odessa. She amply entertained her large audience at once, as was shown by the enthusiastic rounds of applause which greeted every number and was graciously responded to by repeated encores. Miss Newton is a Reader who is endowed with a wonderful personality, and the art of mimicry which cannot be excelled. Already, young and old alike, are asking "when is she coming again?" Able assistance was given to the programme by local talent both from Wilton and Odessa.

SUPERLATIVE VALUE.

Has a combination of three papers in one, such as The Family Herald and Weekly Star of Montreal, can be produced and delivered to subscribers at the low price of two dollars a year, remains an unsolved mystery to the reading public. In each issue of this seventy-two page weekly there is a complete farm journal, a home magazine containing seven days' reading for every member of the family, and a weekly digest of world events.

If this were not enough, we now read an announcement by the publishers of The Family Herald that for a limited period they are offering each new subscriber, in addition to the regular Book, cost free. Present subscribers who send in one new subscription to The Family Herald in addition to their own renewal also qualify for a book. Any one of the following books may be selected: (1) "The New Farmer's Manuel," compiled and published by The Family Herald and Weekly Star, without question the best book of reference ever offered to the Canadian farmer; (2) "The Family Herald Cook Book" complete, scientific but non-technical; (3) "100 of the Best Songs"; (4) "Old Singing Games"; (5) "Album of Sacred Songs."

The fact is emphasized that these valuable books will not be sold for cash at any price, but can be obtained only as a reward for new subscriptions at the rate of two dollars per year. The supply is said to be limited, but the publishers guarantee delivery provided the new subscription is received by December 31.

SELBY W. C. T. U.

The first W. C. T. U. Parlour meeting of the season was held at the Parsonage, with a good attendance. The President, Mrs. Sidney Perrin, occupied the chair. The Devotional exercises were conducted by the Evangelistic Superintendent, Mrs. Burnell Denison, who chose for her lesson the 4th chapter of St. John, emphasizing the 14th verse, "But whosoever drinketh of the water that I shall give him shall never thirst; but the water that I shall give him shall be in him a well of water springing into everlasting life." Quoting "Tis Honor by the Side of the Road", she impressed on all the value of "service".

The following papers on various phases of Union work were read by members of the Union: "Non-alcoholic Medication" by the President, Mrs. Perrin; "Useful Labor", by Mrs. Amey; "Harmful Effects of the Movies" by Mrs. H. F. Denison, and "Alcohol—Is It Natural?" by Mrs. Anderson. These were most interesting and instructive.

Letters of appreciation of flowers and kindness shown by the Union during sickness, were received.

The Treasurer reported $9.25 received from Verandah Teas during the summer.

At the conclusion of the meeting, the host and hostess, Rev. and Mrs. Anderson, served lunch, and received hearty thanks for the kind hospitality.

OBITUARY.

Andrew Prout.

At the home of his brother, J. G., in Adolphustown, on the 4th of December, 1922, Andrew Prout, a life long resident of Sheffield, died suddenly of heart failure. Owing to declining health, he sold the old homestead, which had been in possession of the family since 1835, about four years ago. For the past year he had been living at his brother's, in Adolphustown. He was able to walk around some distance and do routine work every day. On returning from his usual walk, he sat on a chair by the stove, and when Mrs. Prout came in immediately, he had passed away. Dr. Duffett, who was called by telephone, was there in less than ten minutes, removed him from the chair, placed him on a couch, and pronounced him dead. It was a terrible shock to his relatives.

He was of a quiet disposition, always the same temperament. He was well and favourably known by all his neighbors. Those who had dealings with him always considered him an honest man. He was fairly successful as a farmer. He was twice married. First to Mary McKeown, who only lived about a year; then he married Elizabeth Burns, for his second wife, who was his partner for forty years, dying in 1915. His surviving relatives are his brother, John G., and family, of Adolphustown, and Nancy, of Selby, Ont. He was a consistent member of the Roman Catholic Church, regularly in his seat every Sunday, generous in support of his Pastor and all requirements of the Church.

GET YOUR COPY OF THE WAR WORK NOW

There are still left a number of copies of the War Work of Lennox and Addington, but the supply is limited, and when they are gone there will be no second edition. It is a book of 278 pages, and deals about our own boys who joined the army, our men and women who worked so faithfully at home, and no part of the county has been overlooked. It is very suitable for a Christmas present, and will be appreciated by the boys whose names appear in it. Give your boy a copy to preserve in the family for all time. The price was fixed at less than the actual cost of production so as to bring it within the reach of all. Copies may be had at the Napanee Bookstores or at the Beaver Office. Also at A. B. Carscallen's, Tamworth, or S. D. Warner's, Enterprise.

For chapped hands you will find Walladerma Cuticle Balm, an excellent preparation, 25c. large bottle, at Wallace's.

Treasures Valued at $40,000,00 Unearthed in Ancient Thebes

Treasures estimated to be worth more than $40,000,000 have been unearthed in the tomb of Tutenkhamun, near Luxor, Egypt, on the site of the ancient town of Thebes. Howard Carter, the explorer, and the Earl of Carnarvon, who have been at work there for seven years, announced the discovery two weeks ago, but the extent of the treasures is only now being revealed.

Tutenkhamun was one of the heretic kings of the eighteenth Egyptian dynasty, who reigned about 1350 B.C. His funeral paraphernalia has now been found in a series of subterranean chambers in the Royal Necropolis of the Theban Empire directly below the tomb of Rameses VI.

It is said here an American millionaire offered Lord Carnarvon $150,000 for a single gold statue which was found in this veritable Aladdin's cave. Lord Carnarvon, however, has refused to sell the figure.

Another of the discoveries in the tomb was the King's gem-studded throne, said to be one of the most beautiful Egyptological art objects ever discovered. Life-size statues and vases of exceedingly intricate and beautiful design, a quantity of the richly embroidered royal robes and inlaid furniture were among the treasures brought to light. Of less value, but equal interest, was the remains of large quantities of food for the dead.

Address and Presentation

On Thursday evening, Dec. 14th, a few of the many friends of Mr. and Mrs. John Scanlin, Enterprise, assembled at their home, and presented them with the following address, before their departure for Texas, to spend the winter. Mr. Scanlin was presented with a club bag and Mrs. Scanlin with an ivory brush, comb and mirror.

Mr. and Mrs. John Scanlin.

Dear Friends,—It is with feelings of regret that we have learned of your intended departure from our midst, even for a short time. So on the eve of your leaving we, your friends and neighbors, have taken this opportunity to gather here to express to you our good will and fellowship and to wish you God speed on your journey.

We felt that we could not let you depart from us without showing some appreciation of your friendship and the highest esteem in which we regard you. When we consider the fact that you have been residents of this vicinity all your lives and that you have been residents of this vicinity all your lives, and that you have always taken an active part in the social as well as in the work of the church, it makes us conscious of the fact that you are one of our best citizens in every sense of the word.

We can truly say that we have ever found you friends in need or in any way when necessary, and trust that the memories you take with you on your journey are as pleasant as those you leave behind.

You can surely feel that you have done your duty, and can have no regrets that you have left undone anything that might have been done to make this a better place in which to live.

We ask you to accept these small tokens of our esteem and trust that in using them you will think kindly of us all.

We hope and trust that your visit will be beneficial to your health, and that you reach your destination in safety, and we will look forward to your return when we can grasp your hands to welcome you back among us.

Signed on behalf of your friends,

P. J. Murphy.
Joe Dowling.

The Cost of Living

ADVERTISING turns over stocks rapidly, and therefore multiplies profits. This means that prices in a shop which advertises can be short rather than long.

Of this you may be sure: Prices in a shop which advertises are not MORE than in a shop which does not advertise. The chances are that they are oftentimes lower.

This, also, is generally true: You will find better goods, better values and better service in these shops which turn over their stocks rapidly. This means, as a general thing, shops which advertise.

A NOTE TO MERCHANTS

Advertising costs you nothing—it is paid for by the profits on increased sales.

Advertising is easy—it is simply saying in writing what you say to the customers in your shop. Turn over stocks quickly, if you would make more money.

SOY BEANS IN ONTARIO

Its Seed Production Here Is Yet Rather Uncertain.

The Crop Is Good for Hay, Pasture, Silage or Seed—Breeding Plants for Selection—Systematic Field Arrangement—Marl.

(Contributed by Ontario Department of Agriculture, Toronto.)

Soy beans can be successfully grown for fodder in Southwestern Ontario and in the Niagara Peninsula, and in favored areas even farther north. The production of seed of the Soy bean in Ontario is a more uncertain problem. In good seasons, first-class seed of a number of varieties have been produced at Guelph, and in poor seasons no matured seed was obtained from any variety.

Soil Inoculation Necessary.

Soy beans are very rich in nitrogen, the seed having a higher protein content than either common beans or field peas. This plant is a legume, and when planted for the first time should be inoculated with the proper nitrogen fixing bacteria. The Soy bean has varied uses, the whole crop being grown for hay, pasture, silage, and green manure, and the seed for stock feed. In the Orient, the seed is grown not only for stock feed, but to an even larger extent for human consumption.

For Hay, Silage, Pasture or Seed.

Soy beans have been grown for fodder and seed production in the experimental plots at Guelph since 1894, and have been distributed through the medium of the Experimental Union to farmers of Ontario each year for the past twenty-three years. During the past five years, the most promising varieties under test at Guelph have been the O. A. C. No. 211, Ito San, Minnesota No. 157, Early Brown and Early Yellow.

Sandy Soil Not too Rich Preferred.

A sandy loam soil not too rich is suitable for growing Soy beans. The seed-bed preparation for Soy beans should be much the same as for Indian corn and they should be planted about the same time. Soy beans usually produce better results when planted in drills which are about thirty inches apart than broadcasted. It requires three-quarters to one bushel to plant an acre for seed, and about one and one-half bushels to plant the same area for fodder production.

Producing Plants for Selection.

A number of plant-breeding selections are under test at Guelph, and it is hoped that before long varieties will be produced which will be early enough to mature seed each year, and, at the same time, produce a good yield of green fodder. One of the best strains tested at Guelph is the O. A. C. No. 211. This strain will be included in the Soy Bean Experimental Union Co-operative Experiment, material for which will be sent to any Ontario farmer who desires to test this crop in the spring of 1923.—Dept. of Field Husbandry, O. A. C., Guelph.

A Gift of Unusual Appeal

TODAY a new art embellishes the tables of those cultured Canadian women who love life and its graceful luxuries. Years and years of experiment, countless trials and elimination of errors, and now the perfection of the difficult art of plating make it possible for you to obtain a gift that is a veritable masterpiece of silverplated ware.

Holmes & Edwards comes in two qualities. SILVER INLAID wards off wear with solid blocks of sterling silver, fused in at the rest points before plating, and SILVERPLATE, with extra sterling silver at the exposed parts. In either form Holmes & Edwards Silver Plate is a welcome guest at any board.

See the dignified Jamestown pattern, reminiscent of that creative period from which it derived its name. Or the charming and distinctive pattern —The Hostess.

Ask your jeweller to show you, also, his display of flower baskets, cake comports, baking dishes, casseroles—designed and burnished to a perfection that has made Holmes & Edwards deservedly famed.

IN MEMORIAM.

In sad but loving memory of Charlie Cook, who departed this life Dec. 27th, 1912.

In that city of life, over the hills far away,
Where the sun never sets, nor the flowers decay;
He is with the Redeemed, free from trouble and pain,
We miss him so much, but we'll meet him again.

Sadly missed by Father, Mother, Sisters and Brothers.

IN MEMORIAM.

In loving memory of J. L. P. Gorsline, who died Dec. 27th, 1917.

The depths of sorrow we cannot tell,
Of the loss of one we loved so well;
And while he sleeps a peaceful sleep,
His memory we shall always keep;
His smiling face to us so dear,
His gentle footsteps no more we hear,
His willing hand, and face so sweet,
In Heaven some day we hope to meet.

Sadly missed by Wife and Family.

PLUMBING ON THE FARM

Running Water Not a Luxury, But a Necessity.

Practical Hints on Home Installation —The Water Service Pipes—The Fixtures—Have a Good System of Drainage for Waste Water.

(Contributed to Ontario Department of Agriculture, Toronto.)

A plumbing system consists of three main parts: Water service, fixtures, and waste pipes.

The Water Service Pipes.

The pipe to these pipes is to convey the pipe water from the supply to the fixtures. They should be galvanized iron of first-class quality, and the size for the house is ¾-inch, except the one that connects the hot water boiler to the kitchen range or furnace, which is ¾-inch in size. Pipe is bought by the foot in small quantities and by the 100 feet in large quantities, and the price for galvanized iron pipe at the present time is 10 cents per foot for the ¾-inch, and 12 cents for the ¾-inch. The amount required for a house is about 120 feet, but it varies with the size of the house and the layout, particularly the location of the bathroom in relation to the kitchen, also whether soft water is on tap as well as hard water. Sections of pipe are joined together by threaded couplings, and red lead or a special paste is used on the threaded parts to make the joints tight and preserve the threads from rusting and becoming permanently set. The water in these pipes is usually under 30 to 50 pounds pressure, and all joints must be positively water-tight, particularly so if the pipes are laid under floors.

Test the Pipes for Leaks.

After they are installed and before they are covered up either under floors or in partitions, and before they are covered up for good, the water should be turned on under pressure and a thorough test made for leaks, not only at the joints but all along the pipe line, as a small hole or split would cause serious leak.

Be sure the man operating the threading tool knows his job and does it properly. It is very essential that the water pipes be located safe from frost, and therefore it is highly advisable to keep them away from the outside wall of the house or stable, if possible.

It is particularly imperative to keep the pipes connecting the hot water boiler to the kitchen range or furnace free from freezing, as a stoppage in this line would cause a blow-out upon the fire being started in the morning, and serious loss of life or property would likely occur, and lastly it is very poor economy to install anything less than the highest quality of galvanized pipe, never use wrought iron pipe for water, galvanized always.

Christmas
Once more we reach a finger post,
Upon life's broad highway
To keep a tryst with Father Time
Who comes with greetings gay.
Leave care and trouble to themselves
Let pleasure hold full sway,
Mark to the laughter and the song,
All hail to Christmas Day.
The old folks and the youngsters join
In play and merry jest,
Or in the singing of the songs
That old folks love the best,
Because the memories that they bring
Are like a golden ray
Luminous all the happy hours
That crowd the Christmas Day.

"At this Yule-tide season, we unreservedly extend to you, our customers and friends, our best wishes for a real Merry Christmas, and we sincerely hope that the in-coming year will be one of much happiness and prosperity for you."

—The remans of the late Mrs. Jane A. Fralick, who died on December 6th at Seattle, Wash., were brought to Napanee and the funeral took place from the undertaking parlors of Messrs. Masters & Tierney on Monday afternoon. Mrs. J. W. Anderson, her daughter, accompanied the remains.

—A happy birthday party took place at Grimsby, Ont., on Wednesday, December 13th, when a number of Mr. J. F. Beamer's children and grandchildren gathered at the old home in honor of their father's birthday. A fine chicken dinner was prepared by Mrs. Jane Gardner, and served at six o'clock. After spending a very merry time till ten o'clock, they were again called to the dining room, and the birthday cake and Christmas cake and doughnuts were served, with home-made grape wine and sweet cider. There was great fun over the little things in the cake. Mr. Beamer's daughter, Mrs. Harry Anderson, invited him and Mrs. Gardner for Christmas, when about twenty of the family will spend the day.

A Few Helpful Hints for Youthful Exhibitors.

Bear the Ancestors in Mind—Pick Typy Animals—How to Feed and Handle Colts, Calves and Lambs—Boys Are Making Good as Exhibitors.

(Contributed by Ontario Department of Agriculture, Toronto.)

Calves that have been fed liberally and judiciously will develop as the factors which we call heredity determine. It will be all calf, but its perfection of form is determined by its parentage. Feed cannot make a square beef calf out of a three-cornered dairy calf. So to begin with the feeder should select the young calf largely on the individuality of the parents. Get a calf that will feed out to be as good or better than its ancestors—something that is worth while spending time and money on—and then take care of it. The breed score cards give clearly what is desired in breed type. These should be studied along with the animal that is being selected for exhibition. Calves should be halter broken when young, and handled gently that they may be quiet and docile at exhibition time. If in proper flesh to look well, ribs and back well covered, it is comparatively easy to complete the work of preparation. Prospective exhibits should be kept in the stable for several weeks previous to the fair, where they can be washed, groomed and blanketed in order that their handling qualities may reach a degree of mellowness that is very desirable in exhibition calves. When exhibiting before the judge see that your calf is standing on level ground, quietly, and with feet well placed so as to present a good appearance. Don't let the other exhibitors crowd too closely and hide your exhibit from view.

Handling the Colt.

The colt selected for competition at the fair should meet the requirements of the class in which it is planned to exhibit. It should also be typical of the breed that it represents. As with the calf, the colt can only be what its ancestors make it. Colts may look very much alike when only a day old, but they certainly do not develop alike, even if the care and feed are the same. So get your start by selecting your exhibition prospect from good type parentage—exhibition stock if you can. Liberal feeding from the beginning on a comparatively narrow ration to develop all the bone and muscle possible should be the aim. Halter breaking and careful schooling to develop contact and tractability should be practiced from the beginning. The colt's feet should be trimmed frequently enough to keep them in proper shape. Teaching the colt to move attractively at the walk and trot, to stand well and to permit handling of its feet is very essential in the general training of the animal. Such training is also a great aid on exhibition day. The colt that has had liberal treatment from birth and developed well, needs but little exhibition fitting. Good feeding will put a bloom on the colt that cannot be attained in any other way. Protection from the hot sun and flies, blanketing and grooming are material aids in developing a desirable coat condition, and should be practiced during the month previous to the exhibition. Ribbon and straw decorations while very attractive to the average good horseman do not carry very much weight with the high class judge, and are not likely to be of influence except in very close competition.

Shaping the Lamb for the Fair.

Lambs presented for exhibition at school or other fairs should, first of all have been born early enough in the spring to be well grown by exhibition time. The lamb's fleece should be kept free of ticks and lice, burrs and dirt. During the season, a washing can be given, if necessary, at least two weeks previous to the show. Lambs that are kept up and fed in covered pens will show a better fleece than if they had been running out on pasture up to the last minute. The fleece should be neatly trimmed one week or more after washing, if washing is practiced, and care taken to keep the fleece free of chaff and dust until the exhibition is over. In feeding for exhibition, variety in feeding stuffs should be sought in order to keep the lamb's appetite, using oats, corn wheat, bran, cracked peas, barley meat and oil cake meal for the grain portion of the ration and good alfalfa or red clover hay, and swede turnips as roughage. These feeds if mixed to give a ration with a nutritive ratio of 1 to 6 or 1 to 7 will take care of the growth demands and fatten the lambs. Should it be desired to feed the lambs while running on pasture, the grain ration given can be used. The lambs should be handled sufficiently to make them tame enough to stand well when being exhibited. If more than one lamb is called for in a class, all individuals should be uniform in size, type, condition of fleece and body, fleshing.

Getting the Pig Ready.

Pigs presented for exhibition at school or other fairs should be of all be of the proper type and weight for the class in which it is planned to exhibit them. The exhibit should be clean. This condition is best accomplished by an application of warm water, soap and the scrubbing brush. The crate or pen should be well bedded with straw or shavings to make it comfortable and attractive. It should also be free from nails, old wire, broken bottles or any other material likely to injure the exhibit.—L. Stevenson, Sec., Dept. of Agriculture, Toronto.

STRAW FOR FEEDING

A Great Factor for Carrying Over Live Stock.

Of Most Value When Cut Early—Oat Straw Best of the Cereals — Old and Musty Straw Not Desirable for Live Stock Feeding.

(Contributed by Ontario Department of Agriculture, Toronto.)

The quantity of straw consumed by the live stock of Ontario amounts to many thousand tons each year. It is important as a feed, but unfortunately its value is frequently overrated. Straws, the by-products of different cereals, have different values.

The line of demarcation between hays, straws and fodders is not clear, but generally speaking straw is the by-product of ripened grain or forage plants, being made up of the dry leaves and stems. The nearer the plant is to the mature condition at time or harvest the lower the feeding value, because of the concentration of the nitrogenous and fat properties in the developing and ripening seed.

Straw Best When Cut Early.

The straw from over-ripe grain is generally hard in character, unpalatable and indigestible; while the straw from grains cut on the green side are softer, more palatable, and generally contain a higher percentage of digestible matter. The hard condition of some varieties of straw causes such to be almost useless as a feed. Even if such fodder has a feed value, that value cannot be satisfactorily extracted by the digestive processes of our domestic animals.

Varieties of Straw Fed.

The straws generally used for stock feeding are oat, barley, wheat, pea and clover. Others such as timothy, flax, bean and rye straws are occasionally used, but with indifferent results. Oat straw, the best of the varieties mentioned, carries some nutritive feed value as indicated by chemical analyses, but unfortunately the ratio of digestion of the nourishing properties cannot be extracted by the digestive processes of our domestic animals. The value of oat straw is largely increased when the other grains, such as barley and wheat, are cut early, thus the animals will eat more of the straw.

A Good Bulky Feed.

Straw can be used as a feed for all classes of stock, but only in a limited degree, during winter and should be fed to animals requiring some nourishment. Dry cattle can be wintered on straw and a little hay, but they are not at their best. Ewes in lamb can be wintered on straw and a little grain, but are not at their best. Young stock will not do well on straw alone. Calves, Horses and Sheep will eat straw when it is cut fine and mixed with other feeds. Cattle will eat straw when it is cut fine and mixed with other feeds. Machines are available on the farms for the purpose of cutting straw and chaff. Straw is valuable in the manure heaps for the maintenance of the fertility of the land, and should be carefully saved for this purpose. Straw is valuable in the manure heaps for the maintenance of the fertility of the land, and should be carefully saved for this purpose.

Old and Musty Straws Are Not Desirable.

Old, dry and musty straws have little or no feed value, fresh soft and clean straws no matter from what source can generally be used to good advantage by all live stock if care is taken to prepare such in a manner that will aid the animal organism to extract the nourishing elements. Cutting, steaming, or mixing with other feeds to increase palatability and digestibility are always advised.—L. Stevenson, Sec., Ontario Department of Agriculture, Toronto.

A Versatile Matter.

The advantage of mater in the soil may be summed up as follows: It aids aeration, retains moisture, prevents baking, provides conditions suitable for bacteria, aids decomposition of soil particles, supplies plant food, deepens soil layer, prevents leaching, washing and drifting. Every opportunity to return to the soil vegetable matter of any sort should be taken advantage of by all farmers having any respect for the soil of their field.

Continuous grain cropping decreases the productivity of soils. This is due largely to the removing in quantity of the fresh vegetable matter in the soil that is essential to chemical and bacterial action. Without chemical and bacterial action in the soil the feeding of plants would be difficult.—L. Stevenson, Toronto.

LINEN'S MILLS.

RUSSIAN FLY CONTROL.

Is Found Best Effected by the Late Planting of All Wheat.

The late planting of wheat is generally recognized as being the most effective practice in Hessian fly control. Land for wheat should be prepared early, at least six weeks before seeding, in order that a firm seed bed with two inches of loose soil to provide ample covering when the seeding is done. Late in August or early in September narrow strips should be seeded across the field at intervals, these are for the purpose of attracting any Hessian flies that may be present and offering an inducement for egg laying. Between the fifth and tenth of October these egg-catching strips should be ploughed in and the entire field re-worked and seeded. Lands that are in good condition will withstand Hessian fly attacks much better than poor ill-prepared soils, due to the fact that a weakened plant can make good recovery it well nourished. Prepare the land early, fertilize if possible, and seed as late as you can expect the wheat to make sufficient growth for wintering.—L. Stevenson, Sec., Dept. of Agriculture, Toronto.

Costly House for Poultry.

An extensive and costly house for the poultry does not necessarily mean that the stock kept therein is any better than the average. Very often we find that the owner is more proud of his houses and surroundings than he is of his stock of poultry.

The man who loses his temper and abuses the animals has no right to have live stock about the place.

A garden that produces only one crop and then a weed bed of the ground has done only half of its duty.

THE SORE SHOULDER

Ill-fitting Collars Cause Much Suffering to Horses.

Shoulder Galls Are Developed—Soaking the Collar in Water Helps to Reshape It—Bathe and Dust the Galls—Hessian Fly Control.

(Contributed by Ontario Department of Agriculture, Toronto.)

A collar that does not fit the horse's neck and shoulder perfectly may be the cause of considerable suffering to the animal through sore necks, galling, and blistering. Hundreds of horses suffer each year, more especially during the period of warm weather, as on the work on the land is pressing.

Poor Collars Cause Shoulder Galls.

Shoulder galls develop largely through the use of collars that do not fit properly, through the draft being too high or too low, through neglect on the part of the driver to keep both collar and shoulder clean. When a teamster develops a blistered heel or a sore toe the necessity of adjustment is fully and plainly apparent to him, so he fusses around and adjusts the hame or its rope to get relief for himself. A humane and thoughtful driver will do the same for his horse; but unfortunately there are many drivers who neglect to give their horses all the attention that a working animal is entitled to. Collars may fit the horse's shoulders in the spring when the animal is in good condition, but the shrinkage of flesh due to the hard work of several months may leave the horse with a collar much too large. The collar that is too large or not of the correct shape is bound to cause trouble. Sore neck, sore shoulders or unnecessary pain that may develop strenuous days' work for hubs or reduce the efficiency of the horse, should be avoided.

A Horse's Haul Is Done From the Shoulder.

The work that the horse has to perform is done from the shoulder, so it is very important that extreme care be given to the fitting and adjustment of the collar. The neck collar is generally as firm and stiff that it is difficult to mould it to the shape of the horse's neck and shoulder without soaking it in water over night. After swabbing a collar of the proper size in three inches of water, face down until well wet, it may be placed on the horse. The lower straps should be adjusted to draw the collar nearer to the neck. The collar is in a softened condition will press into shape to suit the horse's shoulder. Before the adjustment of the hame and draft. Work the horse only moderately the first few days while the shoulders are hardening and becoming used to the collar. Frequent airing and bathing to cool

SKINNING AN ANIMAL

How to Get the Best Out of a Hide.

Skin While the Carcase Is Warm—Have the Knife Sharp—Avoid Wrinkling — Cut Carefully About the Legs.

(Contributed by Ontario Department of Agriculture, Toronto.)

During the autumn season, considerable farm butchering is done, and in the operation many good hides are spoiled in the skinning. To do a good job easily select a clean hard spot in the shelter of a tree or in a building if the floor is good. A block and tackle or other hoist arrangement should be rigged in a convenient position.

Skin While Carcase Is Warm.

The animal should be cleaned if not it will be difficult to keep the hide and carcase in proper condition. The skinning should start immediately the animal is dead, and the more quickly it is done while the animal is warm the more easily the hide will come off. Make sure that the knife is sharp. After stunning and sticking the animal it should be suspended by cords around the hocks and face, when stunning, with the face below the head on the floor. The operator can start on the throat, an incision being made around the throat from the hock to the other joint, or end of the spinal column, and should not be removed from the hocks. With the head out of the way the animal should be completely drawn and placed breast up, being held in this position by a spreader stick between breast and hocks. Legs should then be skinned out and cut off, leaving the head on the body.

Avoid Forming of Wrinkles.

After removing the feet the hide should be ripped down the belly from the pin bone at the tail to the throat, and should next be skinned by working forward to the breast and then back to the inside of the hind legs close to the tail. The free hand should be used to pull away, pulling outward and upward against the knife. Care should be taken to prevent the formation of wrinkles under the skin as it is being removed. The side should be skinned off nearly to the back bone, leaving it attached at the thighs and shoulders. Change the prop over to the other side of brisket and skin the other side in the same manner.

Cut Carefully About the Legs.

For the cut at the front, legs start in the center, cutting the skin well forward at the brisket and in advance of the front legs, cut back to the union of the fore leg and body and on down the inside of leg to meet the cut made when skinning the sides. In skinning the hind legs start at the center line about six inches from the tail and split the skin to the shank line to the hock. Skin over the rump and thighs. At this stage it is best to insert a gambrel above the hock joints and raise the carcase so that the shoulder will still rest on the floor. Split the skin on the under side of the tail and skin out the tail bone to the end.

Skin Away From Tail and Legs.

Skin the hide carefully, away from the base of the tail and away from the legs and back, using care not to injure instrument such as a knife handle, skinning down to the head of carcase. Be careful and do not cut the hide since such cut makes the value. Where access is given to the shoulders the carcase is pushed clear of the floor and the skinning couple down over the sides, open the cuts by cutting lengthwise and fold the hide back on itself in the form of a square. Ontario Department of Agriculture, Toronto.

Cheap Ice For the Farmer.

Farmers who have not already done so should proceed to lay up a supply of ice for washing milk and for somewhat below the heat summer. The cost of harvesting and storing ice is low when compared with the saving we effect. Ordinarily, it is safe to harvest two tons of ice for each acre in the herd. This will allow for melting and leave enough for family needs. Where ground only is used, about one-third of that quantity of ice will be needed.

Did you ever try cooperation in ice harvesting? It works like a charm. Get one of the men in the neighbors to go into such a scheme. One pound or stream and one set of tools will answer for all. The equipment necessary for harvesting and storing ice consists simply of saws, tongs, and iron bars for pushing the blocks of ice around.

A rough board enclosure ten feet square and eight feet high will hold sufficient ice to provide fifty pounds per day for 120 days after allowing for a reasonable amount of wastage. An important fact to be remembered is that the smaller the quantity of ice stored the larger is the proportion of waste. The bottom of the enclosure should be covered with a foot of sawdust, and a foot of space left between the boards and the ice, which should also be filled with sawdust. The ice should be similarly covered. The drier the sawdust the better. If the soil beneath the enclosure is impervious clay, a layer of gravel under the sawdust is advisable.

If sawdust is not obtainable, planer mill shavings will serve, or neither of these be had, two feet of straw or hay will hay will answer. The good kind of a shed that will keep the weather is all that is re-

If you are not making money on your farm, scratch your head and all kinds of hard thinking.

Keep feeding the hens or they'll stop laying. Keep feeding the pullets or they'll stop growing.

THE LARGEST HOTEL IN THE BRITISH EMPIRE

Montreal's palatial new hotel, The Mount Royal, the largest hotel in the British Empire, will be formally opened on Wednesday, December 20th.

The erection of this new hotel formed one of the largest building enterprises of the American continent during the past year. Almost an entire year was required for the work, during which time more than 1500 men have been employed on the site.

The Mount Royal is a most imposing example of Georgian architecture, for which the materials used were granite, buff stone and light buff brick. It is ten stories high and covers a site of 600x237 feet, said to be the largest floor space of any hotel in America. The interior design is in Italian Renaissance, which treatment is also carried out in the design and colorings of the furnishings and decorations.

Some idea of the magnitude of this new hotel may be obtained from a few of the details of statistics as supplied by the architects. The electric wiring for the building required approximately 150 miles of wire, enclosed in 60 miles of conduit. The telephone system has capacity for some 2,000 stations, equal to the service requirements of a city of 10,000 population. There are several public service rooms, such as the main dining room, lobby, ball room and banquet hall with floor space comparable with that of the larger ice hockey rinks, and the hotel has its own artesian wells with a capacity of 7,200 gallons of water an hour.

A clever idea in connection with the design of the building is the floor arrangement. Above the third floor the building forms a double letter "H", making every guest room an outside room.

RUNNING AN EGG FACTORY.

Valuable Hints as to How to Make the Best of the Hen.

Every flock of hens is an egg factory. Like any other factory the flock can be given the best materials in the world to work on and still fail to produce enough to pay for running the plant. Good feed in sufficient variety is necessary for egg production, but the ability to manufacture eggs from feed must be there first.

It pays to cull out the poor layers any time, to save the feed and labor they eat, but to make a proat on them it is best to cull in late summer or early fall, before the rush of spring chickens lowers the market price of old hens.

Shut up all the hens and pullets some evening. Count them and decide just how many can be readily kept during the coming year without crowding, for this is very likely to hurt egg production and increase the danger of disease. The next morning the flock is ready to be culled.

Cull

1. Poor layers and all old hens.
2. Cripples, and hens with broken-down abdomens or frozen combs.
3. Too fat, quiet, inactive hens that spend much time on the roost.
4. All "cross heads" with long, thin heads and beaks.
5. The lazy, coarse-headed hens with sunken eyes.
6. All very short, stubby hens with feathers extremely ready for moulting.
7. All late-hatched immature pullets and those that are early moulted are much undersized.
8. All hens that moult before August 1.
9. The persistent sitters.
10. All hens with small, fat abdomens.
11. All hens having bad habits (cannibals, feather-pullers, egg-eaters).
12. All cockerels not needed for breeding purposes.

Keep

1. Strong, healthy, vigorous hens with short, neat heads and strong beaks.
2. The hens with long, deep, rectangular bodies and parallel top and bottom lines.
3. The hens with large, bright eyes, active appearance and short, well-worn toe nails.
4. The hens with dusty, worn feathers, especially worn tail feathers, but having a bright, healthy look.
5. The hens that moult late.
6. The noisy, busy, friendly hens.
7. The early risers and these late to roost.
8. The vigorous hens with the faded beaks and shanks.
9. The hens with the soft, pliable abdomens.
10. The hens with the thin pelvic bones spread wide apart.
11. The early-hatched, well-grown pullets.
12. Large, strong, active, quick maturing cockerels of desired variety type and high-producing mothers.

There are five major factors in profitable poultry production—breeding, culling, feeding, housing, and care. These are the essentials; combined they will put the poultry business on a practical business basis.

Onions once frozen should remain frozen until time to use them.

If you want stocky, healthy plants in your hotbeds or greenhouse, ventilate well. Too much water and heat make tall, spindling, weak plants.

Hospital for Sick Children

COLLEGE ST., TORONTO.

Dear Mr. Editor—

Realizing that the trend of publication is swinging more and more towards the exploitation of the burdens which each citizen of Canada must bear, that the bring of those who are unable to help themselves receives a much larger place in our minds, may I draw your attention to the fact that this Hospital is accomplishing great things in a field that is untouched by any other organization.

Little children from all parts of the Province, irrespective of class or creed, children who are sickly and maimed, come here and are made strong and healthy. Is not this in itself a wonderful work?

The service and the duty of the Hospital is far-reaching. As well as personal attention, both surgical and medical, for all the tiny patients, doctors and nurses are also trained to extend the mission of healing to the uttermost parts of the Province.

The entire function of this Hospital must commend itself to you and your readers. It is a CHILD WELFARE work well deserving of the support of your subscribers.

Of late a new and unfortunate factor has added to the responsibilities which the Hospital must assume. You have noticed, no doubt, the alarming increase in the number of motor accidents throughout the Province in the majority of which little children are the chief sufferers. Many of them are little waifs of the poorer sections where the streets are the only playgrounds.

Here are the average day's figures for 1922 attendance:

Out-patients 256
In-patients 199

The carrying out of this great work is your responsibility as well as that of the people of all Ontario. Every contributor to the Hospital is a friend, indeed, to those little mites of humanity, and has the satisfaction of knowing that the result of his individual contribution is bringing joy into at least one home by assisting to care for somebody's child.

The service of the Hospital depends on the continued support of the public and the conversion of dollars into health and strength will, I am sure, meet with your approval. Each minute of every cost's over fifty cents, so you will see that much money is needed to carry on this GREAT MOTHER CHARITY.

Every day yes a large number of additional patients on the Hospital's register. Owing to the advanced costs of surgical and medical appliances maintenance is mounting until now nearly twice the usual amount of money is essential for the fulfillment of our duty. With the approach of Christmas, may I place these facts before your readers in connection with the 47th Christmas appeal of the Hospital for Sick Children?

Faithfully yours,
J. E. ROBERTSON,
Chairman of the Appeal Committee

Xmas Tree Entertainment.

A splendid Xmas Tree Entertainment was given at Sand Hill, on Wednesday night. Although the night was indeed a stormy one, the people turned out in great crowds and manifested splendid interest which greatly encouraged all the workers. The program was by common consent the best ever put on, and great praise is due the following:—Recitations were rendered by Aubrey Moore, Ellis Huffman, Claude Sherman, Gladys Huffman, Gladys Sherman, Geo. Sherman, Rod Leslie, Nina Sherman, Carrie Sherman, Beaty Moore, Henriette Leslie and Della Post. A reading by Ureita Sherman. Monologue by Hazel McCabe. Cornet solo by F. Terry. A number of excellent dialogues were rendered in a very skillful manner by Mr. and Mrs. F. Parks, Mr. and Mrs. W. Huffman, Mr. and Mrs. C. Moore, Miss McCabe, Mr. and Mrs. J. Hanna, Mr. H. Moore and F. Terry. A trio was sung by three little girls, and a drill was performed by eight girls under the leadership of Mrs. F. Parks. Great praise is due to all the many workers, who so admirably succeeded in putting a very successful program. After all the music and other good things were over, Santa Claus appeared and with characteristic generosity distributed the beautiful presents to all present. Many of the presents were not only useful, but costly. By no means least among them all was a beautiful gift by the "Sand Hill Friends" (contained in an envelope) to their pastor. After shaking of hands, and a well ordered round of seasonable wishes, the gathering dispersed.

Let your gift to your boy or girl be a "Brownie Camera". It takes dandy pictures, and the price is only $2.50. For sale only at Wallace's.

Christmas will not be complete without a brick of Neilson's "Salad Ice", that delicious ice cream which was such a favorite at all the receptions and parties last winter. It is made in Napanee and sold there everywhere.

At Emery's Bottles of perfume that will please. Also a full line of Toilet Articles. Look for the Sign.

Grace Church Concert.

The concert in Grace Church last Tuesday evening, under the auspices of the Ladies' Aid and W. M. S., was of more than ordinary merit. Mrs. Stobie, of Belleville, a dainty lyric soprano, captured her audience with her first number, "The Bell Song" from "Lakme", in which the coloratura display was cleanly executed. Mrs. Stobie sings with poise and fine interpretation, and gave a most exacting program. Miss Tufts, of Albert College, the elocutionist of the evening, carried her audience with her from the beginning. She gave a varied program, and proved herself equally at home in a grave or gay selection. We must not forget her excellent Scotch dialect. When we say our local talent never did better work higher praise cannot be given, for no program seems complete without a violin solo from Mrs. Cameron Wilson; while Mrs. B. M. Black's reputation as accompanist has long been established. The violin trio by Mrs. Wilson, Miss Smith and Mr. Black; the piano number by Miss R. Smith, and the organ and piano duet by Mrs. Black and Miss L. Scott, were up to the high standard of the rest of the program.

The new Methodist Calendar, just crammed full of valuable information to the people called Methodists, 35c, at Hooper's Drug Store.

DESMOND.

The date fixed for the play entitled "Which One Won" is Friday evening, Jan'y 5th. This play is being put on by home talent and will no doubt prove very entertaining as well as interesting. Admission 25c., children 15c.—Mr. and Mrs. A. J. Switzer, Mr. L. C. Switzer, also Mr. J. F. Bell, spent Saturday in the Limestone City.—Messrs. Okel and Edgar Drew, who are to represent this County in stock judging at Ottawa in January, spent three days last week in Peterboro', in the packing institution, doing hog grading.—Mr. and Mrs. Jos. Amey are spending a few days at Mr. Fred. Switzer's.

CAMDEN EAST.

The weather for the past week has been cold. We had a fall of snow on Sunday last for pleasure seekers to enjoy themselves.—A Merry Xmas and Happy and Prosperous New Year to the editor of the Beaver and staff.—The concert held in the Parish Hall from Bickell's Corners by the Public School teacher, Mrs. Fairburn, was a decided success financially. A good crowd, an excellent programme and a fine evening.—Miss Cecelia Orster, of Kingston Convent School, spent last week with her parents.—Mr. Robert Glover left on Tuesday morning for a trip to Vancouver to spend the winter with his brother, Richard.—Miss Maude Dickinson, of Toronto, is spending the Xmas holidays under the parental roof.—Mr. Fred Snider spent several days last week at Colebrook East with his sister, Mrs. Hartman.—Mrs. Wm. Snider, of Violet, and Mrs. Snider, of Colebrook, spent Monday last at their brother's, Mr. and Mrs. F. Snider.

GET YOUR COPY OF THE WAR WORK NOW.

There are still left a number of copies of the War Work of Lennox and Addington, but the supply is limited, and when they are gone there will be no second edition. It is a book of 278 pages, and its all about our own boys who joined the army, our own women who worked so faithfully at home, and no part of the county has been overlooked. It is very suitable for a Christmas present and will be appreciated by the boys whose names appear in it. Give your boy a copy to preserve in the family for all time. The price was fixed at less than the actual cost of production so as to bring it within the reach of all. Copies may be had at the Napanee Bookstores or at the Beaver Office. Also at A. B. Christmas 1922

THERE is one event in history that is ever fresh and welcome to the great Christian world—Christmas. Old and young, rich and poor, look forward to its coming, and whether the purse be well or scantily filled, all join in making merry to the best of their ability.

We in Canada have abundant reason in this bountiful year to welcome the return of December 25th. A bumper crop and a gradual sure return to prosperous business activity make it possible to rejoice and be glad.

To all we most sincerely and heartily extend our very best wishes for a Right Merry Christmas.
